CIRCULAR

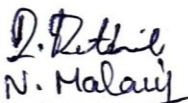

The Internal Quality Assurance Cell of our College has planned to create awareness on "Pollution-free Environment" among the Faculty and the Students of our College. In this regard, the Faculty members (Teaching & Non-Teaching) and Students are asked to use the common transport facility and to avoid their own vehicles to the College on 14.12.2021.

Report

The Internal Quality assurance Cell of our College organized a special programme "Pollution Free Environment" on 14.12.2021 to create awareness among the staff members and students about the vehicular pollution. The goal of this event is to create alertness about global warming caused by the fossil fuel burn and to cut down the traffic congestion on roads. The staff members and the students are encouraged to use bicycles and public transportation systems so as to reduce the carbon foot prints. They also came to the college through walk or bicycle. They have self-satisfaction as they are contributing to conserve the nature. In a bid to reduce the pollution caused by vehicles our institution has planned to organize this programme once in a month in the upcoming year.
