NEP 2020: Challenges and
Opportunities in Higher Education**

22.02.2023

SCOPE OF THE SEMINAR

National Education Policy 2020 (NEP) has marked an epoch development in the educational landscape of India. The motive of NEP is to make the system of education well-resourced and multidisciplinary. NEP is sure to replace the traditional rigidity of the formal education system – stiffness in separation of disciplines, constraints in access to Socio-economically Disadvantaged Groups, inadequate mechanisms for merit-based career management and progression with high-quality liberal education. NEP 2020 provides an optimal learning environment, multidisciplinary education and adequate chances for student mobility. The seminar intends to bring to light the core concepts of NEP 2020 and the possibilities to surmount the challenges involved in implementing it successfully.

OBJECTIVES OF THE SEMINAR

- To discuss the purpose of National Educational Policy and its impact on Higher Education.
- To point out the scores of opportunities in the National Education Policy 2020 for nation building.
- To identify the challenges in implementing NEP 2020 and find feasible pathways for reaching its goals.
