## MINUTES OF RESEARCH ETHICS COMMITTEE MEETING

**Subject Matter 1 :** Discussion on the Minor Research Project Proposals submitted under VVVC MB-MRP Scheme 2023, Phase I

The following were under discussion

- a) A total of 62 projects were reviewed by 8 reviewers
- b) The consolidated statement of approved and unapproved project proposals was reported to get the approval for the sanctioning financial assistance.

### **Resolution 1:**

- ✓ The committee has approved 34 projects for financial assistance under VVVCMB-MRP Scheme 2023 Phase I.
- ✓ The following projects proposed to purchase the certain required equipment as follows.
  - a) Role of Some Indigenous Plants of Tamil Nadu on Neuronal Behaviour of Swiss Albino Mice- Rotator Vacuum Evaporator.
  - b) Development of Value Added Products for Depression and Evaluation of their Antidepressant Activity in Albino Rats – Automatic tablet making machine.
  - c) A Study on Health and Socio-Economic Status of the Paliyar Tribes in Tamilnadu –A Micro Level Study – Auto Analyser.

As per the suggestions/comments received from the reviewer, the Committee consented to sanction the grant towards the above-said projects with a conditional agreement that the PI can purchase the proposed equipment only if it is not available in any other Department. If there is availability of such equipment in any Department, the PI can use it for their proposed analytical or experimental studies with prior permission.

## **MINUTES OF RESEARCH ETHICS COMMITTEE MEETING**

**Subject Matter**      **1 :**    Discussion on the Minor Research Project Proposals submitted under VVVC MB-MRP Scheme 2023, Phase II

The following were under discussion

- c) A total of 8 project proposals were reviewed by 4 subject experts
- a) The consolidated statement of approved and unapproved project proposals was reported
- b) The sanctioning of financial assistance to the selected project proposals was approved.

**Resolution**              **1:**    The members of the Committee have approved 6 Projects for sanctioning the financial assistance under VVVCMB MRP Scheme 2023, Phase II.

The project proposal titled "Isolation and Characterization of Scopoletin – an Anticancer compound from the Leaves of *Simarouba glauca*" required Soxhlet apparatus for the extraction of secondary metabolites. After having a brief discussion on the availability of the proposed apparatus, the Research Ethics Committee suggested to use the apparatus, which is available in multiple pieces at in the Central Instrumentation Centre, and other Departments (Biotechnology, Chemistry, Microbiology and Zoology). Hence, the amount quoted in the proposed project was reduced. However, if the PI needs to do the experimental or analytical part, she can avail the excess amount during the project period or reimburse the spent amount towards the projects.
