### MINUTES OF RESEARCH ETHICS COMMITTEE MEETING

- Subject Matter**      1 : Discussion on the Minor Research Project Proposals submitted under VVVC MB-MRP Scheme 2023, Phase II
- The following were under discussion
- c) A total of 8 project proposals were reviewed by 4 subject experts
  - a) The consolidated statement of approved and unapproved project proposals was reported
  - b) The sanctioning of financial assistance to the selected project proposals was approved.
- Resolution**      1: The members of the Committee have approved 6 Projects for sanctioning the financial assistance under VVVCMB MRP Scheme 2023, Phase II.
- The project proposal titled "Isolation and Characterization of Scopoletin – an Anticancer compound from the Leaves of *Simarouba glauca*" required Soxhlet apparatus for the extraction of secondary metabolites. After having a brief discussion on the availability of the proposed apparatus, the Research Ethics Committee suggested to use the apparatus, which is available in multiple pieces at in the Central Instrumentation Centre, and other Departments (Biotechnology, Chemistry, Microbiology and Zoology). Hence, the amount quoted in the proposed project was reduced. However, if the PI needs to do the experimental or analytical part, she can avail the excess amount during the project period or reimburse the spent amount towards the projects.
