MINUTES OF RESEARCH ETHICS COMMITTEE MEETING

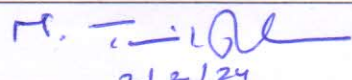

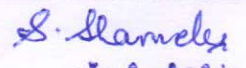

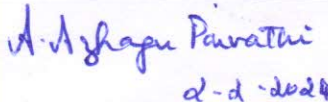

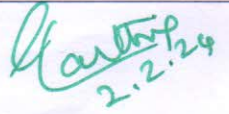

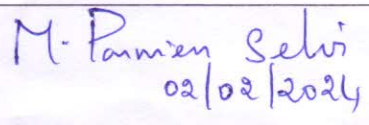

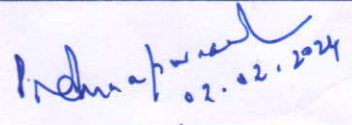

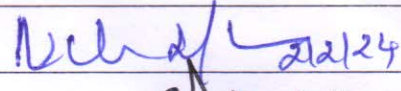

Subject Matter 1 To get approval in providing financial assistance for the selected project proposals under Phase I of VVVCMB-MRP Scheme 2024.

The discussion was carried out to provide seed money to the appropriate projects recommended by the reviewers, and their suggestions and comments on the received project proposals were analyzed and resolved.

- ✓ In the first phase of this scheme, 10 project proposals were received
- ✓ The project titled "Information Governance: Exploring Human-data interaction through Artificial Intelligence" is selected for financial assistance at primary level screening as the outcome of the project can be utilized by the parental institution for promoting teaching and learning. It was approved by the members of the Committee to sanction the amount as quoted in the project proposal.
- ✓ The projects titled "Bioefficacy of Ectoine synthesized from Halophiles thrives in the marine precinct of Tuticorin" and "Fabrication of Asymmetric Supercapacitor with extendable potential window based on vanadium oxide and carbonaceous electrodes" needed the equipment Colony counter and Autoclave for their projects. As these two equipments are available in the Zoology and Biochemistry departments, the grant under non-recurring head is not sanctioned., The PI of these two projects are permitted to use those equipment after getting prior permission from the respective departments. Moreover, the recurring grant is also minimized to the latter one as per the comments given by the reviewer.

Resolution 1 The committee has approved 6 project proposals for financial assistance under Phase I of VVVCMB-MRP Scheme 2024.
