

V.V.VANNIAPERUMAL COLLEGE FOR WOMEN

(Belonging to Virudhunagar Hindu Nadars)

An Autonomous Institution Affiliated to Madurai Kamaraj University, Madurai

Re-accredited with 'A' Grade (3rd Cycle) by NAAC

VIRUDHUNAGAR - 626 001

OUTCOME BASED EDUCATION WITH CHOICE BASED CREDIT SYSTEM REGULATIONS AND SYLLABUS (with effect from Academic Year (2020 -2021))

V.V.Vanniaperumal College for Women, Virudhunagar, established in 1962, offers 20 UG Programmes, 14 PG Programmes, 6 M.Phil. Programmes and 6 Ph.D. Programmes. The curricula for all these Programmes, except Ph.D. Programmes, have been framed as per the guidelines given by the University Grants Commission (UGC) & Tamil Nadu State Council for Higher Education (TANSCH) under Choice Based Credit System (CBCS) and the guidelines for Outcome Based Education (OBE).

The Departments of Commerce, English, History, Mathematics, Biochemistry and Tamil upgraded as Research Centres offer Ph.D. Programmes as per the norms and regulations of Madurai Kamaraj University, Madurai and do not come under the purview of CBCS.

A. CHOICE BASED CREDIT SYSTEM (CBCS)

The CBCS provides an opportunity for the students to choose Courses from the prescribed Courses. The CBCS is followed as per the guidelines formulated by the UGC. The performance of students is evaluated based on the uniform grading system. Computation of the Cumulative Grade Point Average (CGPA) is made to ensure uniformity in evaluation system.

List of Programmes in which CBCS/ Elective Course System is implemented

UG PROGRAMMES

Arts & Humanities	: History (E.M. & T.M.), English, Tamil
Physical & Life Sciences:	Mathematics, Zoology, Chemistry, Physics, Biochemistry, Home Science - Nutrition and Dietetics, Costume Design and Fashion Microbiology, Biotechnology, Computer Science, Information Technology and Computer Applications
Commerce & Management	: Commerce, Commerce (Computer Applications), Commerce (Professional Accounting), Business Administration

PG PROGRAMMES

Arts & Humanities	: History, English, Tamil
Physical & Life Sciences	: Mathematics, Physics, Chemistry, Zoology, Biochemistry, Home Science - Nutrition and Dietetics, Computer Science, Information Technology, Computer Applications (MCA*)
Commerce & Management	: Commerce, Business Administration (MBA*) *AICTE approved Programmes

PRE – DOCTORAL PROGRAMMES (M.Phil.)

Arts & Humanities	: History, English, Tamil
Physical & Life Sciences	: Mathematics, Biochemistry
Commerce & Management	: Commerce

OUTLINE OF CHOICE BASED CREDIT SYSTEM-UG

1. Core Courses
2. Discipline Specific Elective Courses (DSEC)
3. Allied Courses
4. Skill Enhancement Courses (SEC)
5. Non Major Elective Courses (NMEC)
6. Ability Enhancement Compulsory Courses (AECC)
7. Generic Elective Courses (GEC)
8. Internship/Field Project
9. Self-Study Courses
10. Extra Credit Courses (optional)

3. Adolescent Psychology
4. Disaster Management

B. OUTCOME BASED EDUCATION (OBE) FRAME WORK

The core philosophy of Outcome Based Education rests in employing a student - centric learning approach to measure the performance of students based on a set of pre-determined outcomes. The significant advantage of OBE is that it enables a revamp of the curriculum based on the learning outcomes, upgrade of academic resources, quality enhancement in research and integration of technology in the teaching –learning process. It also helps in bringing clarity among students as to what is expected of them after completion of the Programme in general and the Course in particular. The OBE directs the teachers to channelize their teaching methodologies and evaluation strategies to attain the PEOs and fulfill the Vision and Mission of the Institution.

Vision of the Institution

The founding vision of the Institution is to impart Quality Education to the rural women folk and to empower them with knowledge and leadership quality.

Mission of the Institution

The mission of the Institution is to impart liberal education committed to quality and excellence. Its quest is to mould learners into globally competent individuals instilling in them life-oriented skills, personal integrity, leadership qualities and service mindedness.

B.1 Programme Educational Objectives, Programme Outcomes and Programme Specific Outcomes

It is imperative for the institution to set the Programme Educational Objectives (PEOs), Programme Outcomes (POs) and Course Outcomes (COs), consistent with its Vision and Mission statements. The PEOs and the POs should be driven by the mission of the institution and should provide distinctive paths to achieve the stated goals. The PEOs for each Programme have to fulfill the Vision and Mission of the Department offering the Programme.

Vision of the Department of Costume Design and Fashion

To sculpt the young minds with a sense of imaginative and creative thinking and to empower them with technical and professional skills to suit the needs of the industry and community.

Mission of the Department of Costume Design and Fashion

To impart knowledge in various dimensions in the field of Fashion, Textile and Apparel Design, mould them into successful professionals and entrepreneurs in Fashion world and to nurture their social skills and moral values for becoming better citizens.

B.1.1 Programme Educational Objectives (PEOs)

PEOs are broad statements that describe the career and professional achievements that the Programme is preparing the graduates to achieve within the first few years after graduation. PEOs are framed for each Programme and should be consistent with the mission of the Institution.

Programme Educational Objectives (PEOs) of B.Sc. Costume Design and Fashion Programme

The students will be able to

- upgrade their knowledge of fashion by creating designs based on traditional patterns and current trends using modern tools and technology.
- hold different designations like Technical designer, Apparel production manager, Quality controller and Merchandiser in apparel industry and to become successful entrepreneurs in the field of costume and fashion design.
- engage in lifelong learning and work with moral commitment, social responsibility, eco consciousness and humane concern for fellow citizens.

Key Components of the Mission Statement	PEO1	PEO2	PEO3
Impart knowledge in various dimensions of Fashion, Textile and Apparel design	√	√	√
Mould them into Successful professionals and entrepreneurs in Fashion world	√	√	√
Nurture their social skills and moral values for becoming better citizens	-	√	√

B.1.2 Programme Outcomes (POs)

POs shall be based on Graduate Attributes (GAs) of the Programme. The GAs are the attributes expected of a graduate from a Programme in terms of knowledge, skills, attitude and values. The Graduate Attributes include Disciplinary Knowledge, Communication Skills, Critical Thinking, Problem Solving, Analytical Reasoning, Research Related Skills, Co-operation/Team Work, Scientific Reasoning, Reflective Thinking, Information/Digital Literacy, Multicultural Competence, Moral and Ethical Awareness/Reasoning, Leadership Qualities and Lifelong Learning.

On successful completion of the Programme, the students will be able to

- 1 apply effectively the acquired knowledge and skill in the field of Arts, Physical Science, Life Science, Computer Science, Commerce and Management for higher studies and employment. (*Disciplinary Knowledge*)
- 2 communicate proficiently and confidently with the ability to express original/ complex ideas effectively indifferent situations. (*Communication Skills*)
- 3 identify, formulate and solve problems in real life situations scientifically /systematically by adapting updated skills in using modern tools and techniques. (*Scientific Reasoning and Problem Solving*)
- 4 critically analyse, synthesize and evaluate data, theories and ideas to provide valid suggestions for the betterment of the society. (*Critical Thinking and Analytical Reasoning*)
- 5 use ICT in a variety of self-directed lifelong learning activities to face career challenges in the changing environment. (*Digital Literacy, Self-directed and Lifelong Learning*)
- 6 self-manage and function efficiently as a member or a leader in diverse teams in a multicultural society for nation building. (*Co-operation/Team Work and Multicultural Competence*)
- 7 uphold the imbibed ethical and moral values in personal, professional and social life for sustainable environment. (*Moral and Ethical Awareness*)

B.1.3 Programme Specific Outcomes (PSOs)

Based on the Programme Outcomes, Programme Specific Outcomes are framed for each UG Programme. Programme Specific Outcomes denote what the students would be able to do at the time of graduation. They are Programme specific. It is mandatory that each PO should be mapped to the respective PSO.

On completion of B.Sc. Costume Design and Fashion Programme, the students will be able to

PO1 – *Disciplinary Knowledge*

PSO1.a: apply professional knowledge and technical skills in the field of fashion, textiles and apparels, to pursue higher education or to start a new venture.

PSO1.b: apply the principles in textiles and fashion to design fashionable garments and merchandise its functional aspects in fashion market.

PO2 - Communication Skills

PSO 2.a: communicate effectively the concepts related to all fields in textile, fashion and apparel in the form of written reports and oral presentations to the industry and society.

PSO2.b: communicate effectively with society and design unique collections with suitable textiles in the business scenario.

PO3 - Scientific Reasoning and Problem Solving

PSO3: identify the current issues in fashion, apparel and textile domain and provide feasible solutions focusing on the need of the industry and society.

PO4 – Critical thinking and Analytical Reasoning

PSO4.a: make use of appropriate skills acquired in apparel designing, draping, Pattern making, grading and constructing for various model apparels with good fit for different age groups.

PSO 4.b: introduce new trends by merging new ideas and innovative models in traditional patterns of textiles, embroideries, costumes and accessories to suit the tastes and preferences of the community.

PO5 - Digital Literacy, Self-directed and Lifelong learning

PSO5: employ the ICT tools in developing the fashion world and engage in lifelong learning in their area of interest.

PO6 – Cooperation /Team Work and Multi-Cultural Competence

PSO6: use their potentialities and life oriented skills to work in teams and also become successful entrepreneurs.

PO7 - Moral and Ethical awareness

PSO7: uphold and extend their moral values and ethics to the workplace and to the society forth sustainable environment.

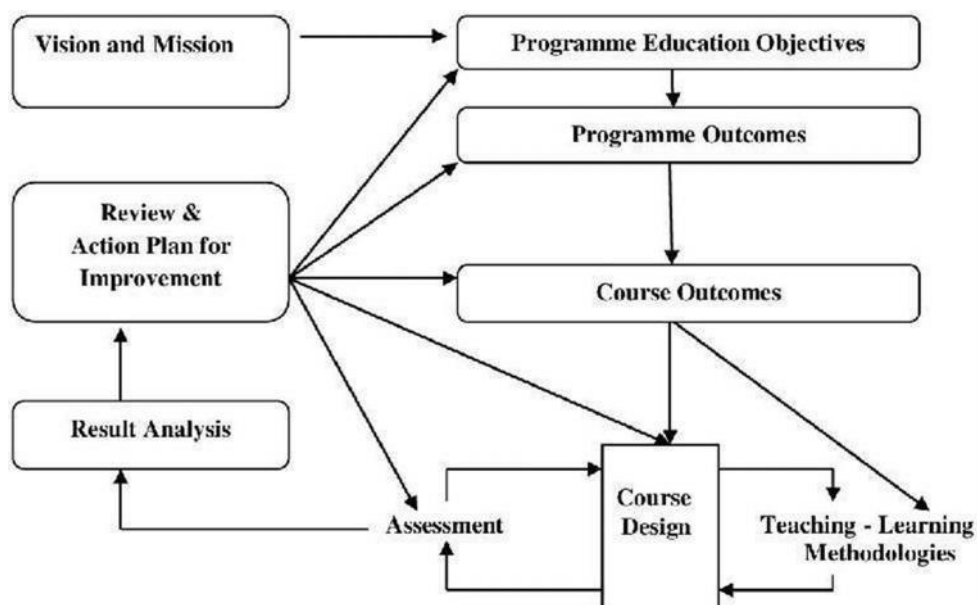

PO – PEO Mapping Matrix

Attainment of PEO can be measured by a PO-PEO matrix. PEOs should evolve through constant feedback from alumnae, students, industry, management, *etc.* It is mandatory that each PEO should be mapped to at least one of the POs.

PEOs POs/PSOs	PEO1	PEO2	PEO3
PO1/PSO1	✓	✓	✓
PO2/PSO2	✓	✓	✓
PO3/PSO3	✓	✓	✓
PO4/PSO4	✓	✓	✓
PO5/PSO5	✓	✓	✓
PO6/PSO6	✓	✓	✓
PO7/PSO7	-	✓	✓

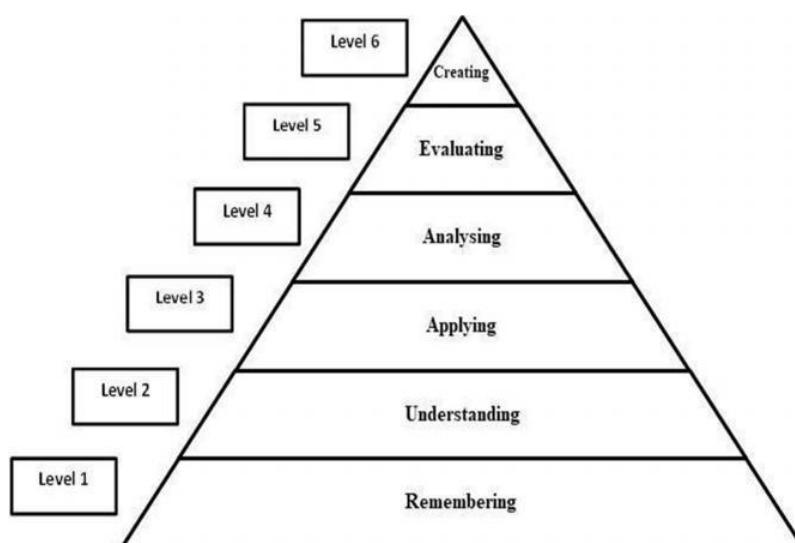

B.1.4 Course Outcomes (COs)

Course Outcomes are narrow statements restricted to the Course contents given in five units. Course Outcomes describe what students would be capable of, after learning the contents of the Course. They reflect the level of knowledge gained, skills acquired and attributes developed by the students after learning of Course contents. Cos are measurable, attainable and manageable in number. COs contribute to attain POs in such a way that each CO addresses at least one of the Pos and also each PO is reasonably addressed by adequate number of COs.

It is important to determine the methods of assessment. A comprehensive assessment strategy may be outlined using the revised Bloom's Taxonomy levels.

BLOOM'S TAXONOMY

CO – PO Mapping of Courses

After framing the CO statements, the COs framed for each Course is mapped with Pos based on the relationship that exists between them. The COs which are not related to any of the POs is indicated with (-), signifying Nil. Measurement Mapping is based on Four Points Scale [High (H), Medium (M), Low (L) and Nil (-)]. For calculating weighted percentage of contribution of each Course in the attainment of the respective POs, the weights assigned for H, M and L are 3, 2 and 1 respectively.

CO - PO/PSO Mapping Table (Course Articulation Matrix)

PO/PSOs Cos	PO1/ PSO1	PO2/ PSO2	PO3/ PSO3	PO4/ PSO4	PO5/ PSO5	PO6/ PSO6	PO7/ PSO7
CO1							
CO2							
CO3							
CO4							
CO5							

ELIGIBILITY FOR ADMISSION

Candidates should have passed the Higher Secondary Examination conducted by Board of Higher Secondary Education, Government of Tamil Nadu/any other Examination accepted by the Academic Council with +2 Academic/Vocational stream.

DURATION OF THE PROGRAMME

The candidates shall undergo the prescribed Programme of study for a period of three academic years (six semesters).

C Q. No.(16-20)	Open Choice	5	3	15	45
Total					100

ELIGIBILITY FOR THE DEGREE

The candidate will not be eligible for the Degree without completing the prescribed Courses of study, lab work, etc., and a minimum Pass marks in all the Courses.

- No Pass minimum for Internal Assessment.
- Pass minimum for External Examination is 27 marks out of 75 for Core Courses, Discipline Specific Elective Courses and Allied Courses.
- Pass minimum for External Examination is 21 marks out of 60 for Skill Enhancement Courses and Non Major Elective Courses.
- The aggregate minimum pass percentage is 40.
- Pass minimum for External Practical Examination is 21 marks out of 60 marks.
- Pass minimum for Ability Enhancement Compulsory Course and Generic Elective Course is 40.

- Pass minimum for Self Study Courses is 40.

ATTENDANCE

- For UG, PG and M.Phil. Programmes,
 1. The students who have attended the classes for 76 days (85%) and above are permitted to appear for the Summative Examinations without any condition.
 2. The students who have only 60-75 days (66% - 84%) of attendance are permitted to appear for the Summative Examinations after paying the required fine amount and fulfilling other conditions according to the respective cases.
 3. The students who have attended the classes for 59 days and less – up to 45 days (50% -65%) can appear for the Summative Examinations only after getting special permission from the Principal.
 4. The students who have attended the classes for 44 days or less (<50%) cannot appear for the Summative Examinations and have to repeat the whole semester.
- For Part V in UG Programmes, the students require 75% of attendance to get a credit.
 - a. For Certificate, Diploma, Advanced Diploma and Post Graduate Diploma Programmes, the students require 75% of attendance to appear for the Theory/Practical Examinations.

These rules come into effect from 2020-2021 onwards.

B.3 ASSESSMENT MANAGEMENT PLAN

An Assessment Management Plan that details the assessment strategy both at the Programme and the Course levels is prepared. The continuous assessment is implemented using an assessment rubric to interpret and grade students.

B.3.1 Assessment Process for CO Attainment

Assessment is one or more processes carried out by the institution that identify, collect and prepare data to evaluate the achievement of Course Outcomes and Programme Outcomes. Course Outcome is evaluated based on the performance of students in the Continuous Internal Assessments and in End Semester Examination of a Course. Target levels of attainment shall be fixed by the Course teacher and Heads of the respective departments.

Direct Assessment (rubric based) – Conventional assessment tools such as Term Test, Assignment, Quiz and End Semester Summative Examination are used.

Indirect Assessment – Done through Course Exit Survey.

CO Assessment Rubrics

For the evaluation and assessment of Cos and Pos, rubrics are used. Internal assessment contributes 40% and End Semester assessment contributes 60% to the total attainment of a CO for the theory Courses. For the practical Courses, internal assessment contributes 50% and Semester assessment contributes 50% to the total attainment of a CO. Once the Course Outcome is measured, the PO can be measured using a CO - PO matrix.

CO Attainment

Direct CO Attainment

Course outcomes of all Courses are assessed and the CO –wise mark so obtained by all the students are recorded for all the assessment tools. The respective CO attainment level is evaluated based on set attainment rubrics.

Attainment Levels of COs

Assessment Methods	Attainment Levels	
Internal Assessment	Level1	50% of students scoring more than average marks or set target marks in Internal Assessment tools
	Level2	55% of students scoring more than average marks or set target marks in Internal Assessment tools
	Level3	60% of students scoring more than average marks or set target marks in internal Assessment tools
End Semester Summative Examination	Level1	50% of students scoring more than average marks or set target marks in End Semester Summative Examination
	Level2	55% of students scoring more than average marks or set target marks in End Semester Summative Examination
	Level3	60% of students scoring more than average marks or set target marks in End Semester Summative Examination

Target Setting for Assessment Method

For setting up the target of internal assessment tools, 55% of the maximum mark is fixed as target. For setting up the target of End Semester Examination, the average mark of the class shall be set as target.

Formula for Attainment for each CO

Attainment = Percentage of students who have scored more than the target marks

$$\text{Percentage of Attainment} = \frac{\text{Number of Students who Scored more than the Target}}{\text{Total Number of Students}} \times 100$$

Indirect CO Attainment

At the end of each Course, an exit survey is conducted to collect the opinion of the students on attainment of Course Outcomes. A questionnaire is designed to reflect the views of the students about the attainment of Course outcomes.

Overall CO Attainment= 75% of Direct CO Attainment +25% of Indirect CO Attainment

In each Course, the level of attainment of each CO is compared with the predefined targets. If the target is not reached, the Course teacher takes necessary steps for the improvement to reach the target.

For continuous improvement, if the target is reached, the Course teacher can set the target as a value greater than the CO attainment of the previous year.

B.3.2 Assessment Process for Overall PO Attainment

With the help of CO against PO mapping, the PO attainment is calculated. PO assessment is done by giving 75% weight age to direct assessment and 25% weight age to indirect assessment. Direct assessment is based on CO attainment, where 75% weight age is given to attainment through End Semester examination and 25 % weight age is given to attainment through internal assessments .Indirect assessment is done through Graduate Exit Survey and participation of students in Co-curricular/Extra-curricular activities.

PO Assessment Tools

Mode of Assessment	Assessment Tool	Description
Direct Attainment (Weight age-75%)	CO Assessment	This is computed from the calculated CO Attainment value for each Course
Indirect Attainment (Weightage-25%)	Graduate Exit Survey10%	At the end of the Programme, Graduate Exit Survey is collected from the graduates and it Gives the opinion of the graduate son attainment
	Co-curricular /Extracurricular	For participation in Co-curricular/ Extracurricular activities during the period of their study.

Programme Articulation Matrix (PAM)

Course Code	Course Title	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8
Average Direct PO Attainment									
Direct PO Attainment in percentage									

Indirect Attainment of POs for all Courses

POs	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8
Graduate Exit Survey								
Indirect PO Attainment								

Attainments of Pos for all Courses

POs	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8
Direct Attainment (Weightage-75%)								
Indirect Attainment (Weightage-25%)								
Overall PO Attainment								

**Overall PO Attainment=[75% of Direct PO Attainment+
25% of Indirect PO Attainment (Graduate Exit Survey
& Participation in Co-curricular and
Extracurricular Activities)]**

Expected Level of Attainment for each of the Programme Outcomes

POs	Level of Attainment
Value \geq 70%	Excellent
Value \geq 60% and Value $<$ 70%	Very Good
Value \geq 50% and Value $<$ 60%	Good
Value \geq 40% and Value $<$ 50%	Satisfactory
Value $<$ 40%	Not Satisfactory

Level of PO attainment

Graduation Batch	Overall PO Attainment (in percentage)	Whether Expected Level of PO is Achieved? (Yes/No)

B. 3.3. Assessment Process for PEOs

The curriculum is designed so that all the courses contribute to the achievement of PEOs. The attainment of PEOs is measured after 5 years of completion of the programme only through indirect methods.

Target for PEO Attainment

Assessment Criteria	Target(UG)	Target(PG)
Record of Employment	25% of the class strength	30% of the class strength
Progression to Higher Education	40% of the class strength	5% of the class strength
Record of Entrepreneurship	2% of the class strength	5% of the class strength

Attainment of PEOs

Assessment Criteria & Tool	Weightage
Record of Employment	10
Progression to Higher Education	20
Record of Entrepreneurship	10
Feedback from Alumnae	30
Feedback from Parents	10
Feedback from Employers	20
Total Attainment	100

$$\begin{aligned} \text{Percentage of PEO Attainment from Employment} &= \frac{\text{Number of Students who have got Employment}}{\text{Target}} \times 100 \\ \text{Percentage of PEO Attainment from Higher Education} &= \frac{\text{Number of Students who pursue Higher Education}}{\text{Target}} \times 100 \\ \text{Percentage of PEO Attainment from Entrepreneurship} &= \frac{\text{Number of Students who have become Entrepreneurs}}{\text{Target}} \times 100 \end{aligned}$$

Expected Level of Attainment for each of the Programme Educational Objectives

POs	Level of Attainment
Value \geq 70%	Excellent
Value \geq 60% and Value $<$ 70%	Very Good
Value \geq 50% and Value $<$ 60%	Good
Value \geq 40% and Value $<$ 50%	Satisfactory
Value $<$ 40%	Not Satisfactory

Level of PEO Attainment

Graduation Batch	Overall PEO Attainment (in percentage)	Whether Expected Level of PEO is Achieved? (Yes/No)

A. PROCESS OF REDEFINING THE PROGRAMME EDUCATIONAL OBJECTIVES

The college has always been involving the key stake holders in collecting information and suggestions with regard to curriculum development and curriculum revision. Based on the information collected the objectives of the Programme are defined, refined and are inscribed in the form of PEOs. The level of attainment of PEOs defined earlier will be analyzed and will identify the need for redefining PEOs. Based on identified changes in terms of curriculum, regulations and PEOs, the administrative system like Board of Studies, Academic Council and Governing Body may recommend appropriate actions. As per the Outcome Based Education Framework implemented from the Academic Year 2020-2021, the following are the Programme Structure, the Programme Contents and the Course Contents of B.Sc. Costume Design and Fashion Programme.

V.V.VANNIAPERUMAL COLLEGE FOR WOMEN

(Belonging to Virudhunagar Hindu Nadars)

An Autonomous Institution Affiliated to Madurai Kamaraj University, Madurai

Re-accredited with 'A' Grade (3rd Cycle) by NAAC

VIRUDHUNAGAR - 626 001

B.Sc. COSTUME DESIGN AND FASHION

(2020 -2021 onwards)

Semester I	FUNDAMENTALS OF APPAREL MAKING	Hours/Week: 4	
Core Course-1		Credits: 4	
Course Code 20UCFC11		Internal25	External75

COURSE OUTCOMES

On completion of the course, the students will be able to

CO1: describe the concepts of various tools, fabrics and garment components such as stitches, seams, seam finishes, fullness, sleeves, neck finishes, fasteners, trimmings, skirts, plackets, yokes, pockets and collars needed for clothing construction. [K1]

CO2: explain the importance, methods and types in clothing construction to make attire. [K2]

CO3: apply the construction techniques to develop the basics of garment construction. [K3]

CO4: find the applications of the basics of clothing construction in an attractive way. [K3]

CO5: analyze the factors to be considered while making the basics of clothing construction and discover the trendy garments. [K4]

UNIT I Dress Making

Essential tools – cutting tools, measuring tools, marking tools, general tools and pressing tools. Selection of fabric- factors to be considered in selection. Grain importance of grain in fabric construction. (11Hours)

UNIT II Stitches Seams and Seam Finishes

Stitches– meaning, types –temporary stitches and permanent stitches. Seams- meaning, types - plain, single top, double top, french, flat fell, welt, lapped, piped and slot seam. Seam finishes - meaning, types - herring bone, pinked, edge stitched, double stitched finish.

(12 Hours)

UNIT III Cut and Fit Techniques

Fullness- meaning, types- Darts– single pointed dart and double pointed dart. Tucks-pin tuck, cross tuck, group tuck, shell tuck and corded tuck. Gathers-gathering by hand, machine and elastic. Pleats – kick, fan, cartridge, pinch, knife, box and inverted box pleats. Frills – single layer, double layer frill. Godets and ruffles. (11 Hours)

UNIT IV Sleeves and Fasteners

Sleeves – making patterns of different types of sleeves, constructing different types of sleeves- plain, puff, leg – o – mutton, raglan and kimono. Various neck finishes – U neck, square neck and asymmetrical neck line, facing, piping and binding. Fasteners – zipper, shirt button, fancy button, press button, button hole, hook and eye. Trimmings – fringes, tassels, pompoms. Skirts – plain skirt, gathered skirt, long gored skirt, circular skirt and semicircular skirt. (13 Hours)

UNIT V Placket, Collar and Pocket Variations

Plaques – continuous placket and two piece placket. Yokes – selection of yoke design, creating variety in yoke design, preparing patterns for different types of yokes, hints on attaching yokes. Pockets – patch pocket, set-in pocket, pocket set into a seam, selection of pocket design, creating variety in pocket design, constructing different types of pockets. Collars – designing collars, classification of collars, preparing patterns for different types of collars and application of collars. (13 Hours)

VIRUDHUNAGAR - 626 001

B.Sc. COSTUME DESIGN AND FASHION

(2020 -2021onwards)

Semester I	FIBER AND YARN SCIENCE	Hours/Week: 4	
Core Course-2		Credits: 4	
Course Code 20UCFC12		Internal 25	External 75

COURSE OUTCOMES

On completion of the course, the students will be able to

CO1: describe the basic concepts of various textile fibres, yarns and threads. [K1]

CO2: classify the types of fibres, yarns, threads and also the characteristics and importance of threads in textile industries. [K2]

CO3: trace the properties, significance and manufacturing process of fibres, yarns and threads. [K2]

CO4: identify the various types of fibre and find the changes that occur in the processing of fibres and yarns and also select the quality threads for sewing. [K3]

CO5: analyze the role and end uses of fibres, yarns and threads in textile industries. [K4]

UNIT I Textile Fibres

Introduction to textile fibres – definition, sources, classification, properties of textile fibres, primary & secondary characteristics of textile fibres. Identification of textile fibres- visual, burning, microscopic and solubility test. Longitudinal and cross sectional views - cotton, wool, silk, polyester, nylon, polypropylene and acrylic fibres. (13 Hours)

UNIT II Manufacturing Process

Cellulose fibres – manufacturing process – properties and end uses - cotton, hemp, ramie, bamboo, lyocel, banana, linen and Jute. Protein fibres- production source, properties and end uses- silk and wool. Regenerated cellulose fibres – production source, properties and end uses – viscose rayon, acetate rayon. (13Hours)

UNIT III Synthetic Fibres

Synthetic fibres – production source, properties and end uses - nylon, polyester, acrylic, modacrylic, polyethylene and polypropylene, (spandex and lycra). (11Hours)

UNIT IV Yarn manufacturing Process

Yarn manufacturing process for short staple fibres, study of yarn twist and its importance. Spinning process – ring and open end yarn spinning. Flowchart for manufacturing carded, combed yarn and folder yarn. Difference between ring spinning and air jet spinning. (12Hours)

UNIT V Types of Yarns

Yarn - definition, classification –texturisation – types (simple and complex yarns) and uses, blends – types, uses of blended yarns. Sewing threads – types and properties and fancy yarns. (11 Hours)

B.Sc. COSTUME DESIGN AND FASHION (2020 -2021 onwards)

Semester I	HOME FURNISHING	Hours/Week: 4	
Allied Course-I		Credits: 4	
Course Code 20UHSA11		Internal 25	External 75

COURSE OUTCOMES

On completion of the course, the students will be able to

CO1: state the concept, objectives and importance of home furnishing accessories, stain removal and dry cleaning. [K1]

CO2: classify the types of home furnishing, stain and dry cleaning. [K2]

CO3: select the appropriate furnishing materials for various home furnishing and methods of stain removal and dry cleaning. [K2]

CO4: apply the techniques involved in home furnishing, stain removal and dry cleaning. [K3]

CO5: analyze the factors to be considered while planning to furnish the home and care and maintenance of home furnishing materials. [K4]

UNIT I

Introduction to Home Furnishing

Introduction to home furnishing – types and selection of furnishing materials. Living room linen – upholstery, wall hangings sofa cover, cushion cover, bolster and bolster cover.

(9 Hours)

UNIT II

Curtains and Draperies

Doors and windows – types. Curtains - draw, tailored, pleated, café curtains, 3 tier curtains - accessories and functions, care and maintenance. Styles in draperies. Valances - types.

(13 Hours)

UNIT III**Floor Coverings and Wall Coverings**

Wall coverings-definition, types, use and care. Floor coverings- hard floor coverings-definition, types, use and care. Soft floor coverings - definition, types, use and care. (15 Hours)

UNIT IV**Linens**

Types of Bed linen – sheets, blankets, blankets covers, comfort, comfort covers, bed spreads, mattress, mattress covers, pillow and pillow covers. Kitchen linen –apron, table linen and hand towel. Bath room linen –bath towel. (13 Hours)

UNIT V**Care and Maintenance**

Dry Cleaning – definition, types of fabric polishing Stain removal – classification into animals, vegetables, grease, dye and mineral stain – scorch and glass stain – general rules and ways of stains removal. (10 Hours)

Course Code 20UHSA11N		Internal 25	External 75

COURSE OUTCOMES

On completion of the course, the students will be able to

CO1: state the concept, objectives and importance of home furnishing accessories, stain removal and dry cleaning. [K1]

CO2: classify the types of home furnishing, stain and dry cleaning. [K2]

CO3: select the appropriate furnishing materials for various home furnishing and methods of stain removal and dry cleaning. [K2]

CO4: apply the principles and techniques involved in home furnishing, stain removal and dry cleaning. [K3]

CO5: analyze the factors to be considered while planning to furnish the home and care and maintenance of home furnishing materials. [K4]

UNIT I

Introduction to Home Furnishing

Introduction to home furnishing – types and selection of furnishing materials. Living room linen – upholstery, wall hangings, sofa cover, cushion cover, bolster and bolster cover. (12 Hours)

UNIT II

Curtains and Draperies

Doors and windows – types. Curtains - draw, tailored, pleated, café curtains, 3 tier curtains - accessories and functions, care and maintenance. Styles in draperies. Valances – types (12 Hours)

UNIT III**Floor Coverings and Wall Coverings**

Wall coverings-definition, types, use and care. Floor coverings- hard floor coverings- definition, types, use and care. Soft floor coverings - definition, types, use and care. (12 Hours)

UNIT IV**Linens**

Types of Bed linen – sheets, blankets, blankets covers, comfort, comfort covers, bed spreads, mattress, mattress covers, pillow and pillow covers. Kitchen linen –apron, table linen and hand towel. Bath room linen –bath towel. (12 Hours)

UNIT V**Care and Maintenance**

Dry Cleaning – definition, principles and methods. Fabric polishing - types. Stain removal – classification - animals, vegetables, grease, dye and mineral stain – scorch and glass stain – general rules and ways of stains removal. (12Hours)

VIRUDHUNAGAR - 626 001

B.Sc. COSTUME DESIGN AND FASHION

(2020 -2021 onwards)

Semester II	PATTERN MAKING AND GRADING	Hours/Week: 4	
Core Course - 3		Credits: 4	
Course Code 20UCFC21		Internal 25	External 75

COURSE OUTCOMES

On completion of the course, the students will be able to

CO1: describe the concepts of body measurements, pattern making, draping, grading, preparing layout, pattern alteration and garment fitting. [K1]

CO2: show the importance, types and steps involved in making a good fit garment. [K2]

CO3: apply the rules, methods and principles followed in creating a garment. [K3]

CO4: utilize the techniques needed for the pre preparation of a garment making with a good fit by using appropriate measurements. [K3]

CO5: compare and contrast the body measurements of ladies and gentlemen and various pattern grading, pattern layout and pattern making and analyze the problems in a garment and alter it with a good fit. [K4]

UNIT I Body Measurements

Anatomy of human body – eight head theory. Body measurements – importance, preparing for measuring, ladies measurements, boys and men's measurements. Standardizing body measurements – importance, techniques used. Relative length and girth measures in ladies / gentlemen. (12Hours)

UNIT II Pattern Making

Pattern making – methods of pattern making – (drafting and draping), merits and demerits. Types of paper patterns (patterns for personal measurements and commercial patterns). Principles of pattern drafting. Drafting pattern-steps in drafting basic bodice front, back and sleeve. Draping – preparation of body form, steps in draping. (12Hours)

UNIT III Garment Fitting

Dart manipulation and garment fitting -styles created by shifting of blouse darts, adding fullness to the bodice, converting darts to a partial yoke design and incorporating darts into a seam forming the yokes. Fitting – standards of a good fit, steps in preparing a blouse for fitting, checking the fitness of a blouse, solving fitting problems in a blouse, fitting techniques.

(12 Hours)

UNIT IV Pattern Alteration

Pattern alteration – importance of altering patterns, general principles for pattern alteration, common pattern alteration in a blouse. Pattern grading – definition, types, manual – master grades, basic front, basic back, basic sleeve, basic collar and basic grading. (12Hours)

UNIT V Pattern Layout

Pattern layout – definition, purpose, rules in layout, types of layout (methods), and layouts for lengthwise striped designs, fabric with bold designs, asymmetric designs, one way designs. Fabric cutting, transferring pattern markings, stay stitching and ease stitching, managing insufficient cloth.

(12Hours)

Semester II	SEWING TECHNOLOGY	Hours/Week: 4	
Core Course-4		Credits: 4	
Course Code 20UCFC22		Internal 25	External 75

COURSE OUTCOMES

On completion of the course, the students will be able to

CO1: show the importance of tools and equipments needed for spreading, marking, pressing cutting and sewing. [K1]

CO2: classify the needles, threads, and the mechanism of stitching and sewing. [K2]

CO3: illustrate the types, methods and functions of sewing, cutting, marking and pressing equipments needed for an apparel industry. [K2]

CO4: identify the principles of various equipments and utilize its techniques in garment manufacturing industry. [K3]

CO5: analyze the care, maintenance and usage of technological equipments in an apparel industry. [K4]

UNIT I Sewing Machineries

Classification of sewing machines, parts and functions of single needle machine, double needle machine, over lock machine, bar tacking machine, button hole making machine, button fixing machine, blind stitching machine, fabric examining machine. Special attachments, care and maintenance, common problems and remedies. (12Hours)

UNIT II Stitching Mechanism

Needles, bobbin and bobbin case, bobbin winding, shuttle and shuttle hooks, loops and loop spreader, threading finger, upper and lower threading, auxiliary hooks, throat plates, take-ups, tension discs, upper and lower thread tension. Stitching, auxiliaries, pressure foot and its types. Feed mechanisms – drop feed, differential feed, needle feed, compound feed, unison feed and puller feed. (13Hours)

UNIT III Cutting Technology

Definition, functions and scope. Cutting equipments - straight knife cutting machine, rotary cutting machine, round knife, band knife cutting machine, die- cutters, laser cutting and water- jet cutting. Types of spread and its quality, spreading equipments and tools used for spreading and spreading methods. (13Hours)

UNIT IV Marking Methods

Positioning marking, types of markers, efficiency of a marker plan, requirements of marker planning. Pressing equipments – purpose and methods - iron, steam press steam air finisher, steam tunnel, special types- pleating and permanent press. (11Hours)

UNIT V Sewing Mechanism

Needle- parts and functions. Sewing federal standards for stitch and stitch classification. Federal standards for seam and seam classification. Fabric sewability. Sewing threads- embroidery thread, metallic thread and elastic thread. (11Hours)

Semester II	FUNDAMENTALS OF APPAREL MAKING LAB	Hours/Week: 2	
Core Practical-1		Credits: 2	
Course Code 20UCFC21P		Internal 40	External 60

COURSE OUTCOMES

On completion of the course, the students will be able to

CO1: identify the methods involved in stitching the fundamentals of apparel making. [K3]

CO2: sketch the diagram needed for the basics of apparel making. [K3]

CO3: apply the technical skills needed for making the fundamentals of apparel making. [K3]

CO4: construct the samples of stitches, seams, seam finishes, fullness, plackets, neck finishes, trimming and components and prepare record.[K3]

CO5: examine the basics of apparel making for a suitable fabric and person. [K4]

Preparation of sample stitch for

1. Basic hand stitches - temporary stitches, permanent stitches
2. Seams - plain, single top, double top, french, flat fell, welt, lapped, piped and slot seam.
3. Seam finishes - herring bone, pinked, edge stitched and double stitched finish.
4. Fullness— darts, pleats, tucks, gathers, godets, frills and ruffles
5. Neck finishes – facing, shaped facing, piping and binding
6. Fastener – press button, shank button, hook and eye, shirt button with buttonhole.
7. Plackets – continuous / two pieces placket and miter placket
8. Pockets - patch pocket, patch pocket with flap, seam pocket, welt pocket and slash pocket.
9. Yokes - with fullness, without fullness, midriff yokes and partial yokes.
10. Neck line variations - halter neck line, off shoulder.
11. Skirt variations- umbrella skirt, flared skirt, paneled skirt.
12. Collar variations— peter pan, turtle neck, chinese, shawl, shirt collar.
13. Modified arm hole – cap sleeve, magyar sleeve.
14. Sleeve and bodice combined -raglan, kimono.

Industrial visit.

Semester II	ENTREPRENEURIAL SKILL DEVELOPMENT	Hours/Week: 4	
Allied Course-1		Credits: 4	
Course Code 20UHSA21		Internal 25	External 75

COURSE OUTCOMES

On completion of the course, the students will be able to

CO1:state the concept of entrepreneurship, entrepreneur management, supporting

institutions and organizational structure of a garment unit, departments in a garment unit, factory design and layout and performance of Indian garment export. [K1]

CO2: indicate the qualities of an entrepreneur, characteristics and scope of

management, production, planning and controlling process in garment industries, personnel involved in different departments and SWOT analysis. [K2]

CO3:classify the types of entrepreneur, building, factory layout process and commercial banks. [K2]

CO4:identify the role of factory layout, merchandiser, entrepreneur, manager, supporting institutions and departments in a garment unit, advantages and limitations of building and setting of a garment unit for export market. [K3]

CO5:analyse the functions of management, supporting institutions, personnel nature of the job, requirements of personnel related to health, safety and export procedures. [K4]

UNIT I

Entrepreneurship – meaning, definition and types, need for entrepreneurs, qualities and types of entrepreneurs, difference between entrepreneur and manager. Management – definition, management as a process – planning, organising, directing, controlling and co – ordination. (10 Hours)

UNIT II

Institutions supporting entrepreneurs – DIC, NSIC, SISI, SIPCOT, TIIC, KVIC,CODISSIA, Commercial banks – SBI organisational structure of a garment unit –hierarchical organization, production planning and control. (15 Hours)

UNIT III

Different departments in a garment unit – design department, finance department, purchasing department, production department. Organizing different sections – hierarchy, personnel involved in all the departments, nature of the job. (10 Hours)

UNIT IV

Factory design and layout – importance of factory design, factors affecting factory design, types of buildings (single and multi-store) – advantages and limitations. Factory layout – process, product and combined layout design requirements – requirements relating to health, safety and welfare. (15 Hours)

UNIT V

Performance of Indian Garment Exports, SWOT analysis, setting up garment unit for export market, export documents, export finance – payment methods, export shipping. Role of merchandiser in a garment unit. (10 Hours)

Semester II	HOME TEXTILES LAB	Hours/Week: 2	
Allied Course Practical-1		Credits: 2	
Course Code 20UHSA21P		Internal 40	External 60

COURSE OUTCOMES

On completion of the course, the students will be able to

CO1: choose the appropriate raw materials and principles involved in developing home furnishing accessories. [K3]

CO2: make use of the basic drafting and stitching procedure for preparing household accessories. [K3]

CO3: construct the home furnishing accessories with novel ideas. [K3]

CO4: identify the type of stain and techniques involved to remove it and prepare the record. [K3]

CO5: analyse the factors influencing the preparation of home accessories. [K4]

PRACTICAL:

❖ Preparation of art items

1. Cushion Making
2. Pillow Cover
3. Curtains
4. Rugs
5. Letter Holder
6. Mixi Cover
7. Grinder Cover
8. Fridge Cover
9. Table Mat

Industrial Visit

PRACTICAL:❖ **Preparation of art item**

1. Cafe Curtain
2. Bread Basket
3. Pot Holder
4. Oven Mitten
5. Chair Pads
6. Table Runners
7. Bolster
8. Stain Removal
9. Dry Cleaning – demonstration
10. Marketing of the prepared items

COURSE OUTCOME

On completion of the course, the students will be able to

- CO1: write the formula and procedure for MS Office applications. [K3]
- CO2: make use of the MS Office applications to create documents, spread sheets and power points. [K3]
- CO3: execute the documents created by using MS Word, MS Excel and MS Power point. [K3]
- CO4: prepare the record with the output generated by using MS office applications [K3]
- CO5: examine the formatting options and shortcut keys in MS Office. [K4]

PRACTICALS

Word Exercises

1. Preparing a bio-data.
2. Preparing a business letter.
3. Inserting pictures and clipart in a word document.
4. Implementing mail merge option.

Excel Exercises

5. Student mark list.
6. Creating a sales chart.
7. Profit or loss statement.

8. Salary details.
9. Mean & median calculation.
10. Bill calculation.

Using Multiple Worksheet

11. Stationary details and sales analysis.

Using Chart

12. Showing apparel market growth analysis and showing the state of fashion analysis.

Power Point Presentation Using PPT

13. Create Principles of design.
14. Create an advertisement to popularize a new garment.

REFERENCE BOOKS

Semester III	PATTERN DRAFTING AND CONSTRUCTION FOR KID'S WEAR	Hours/Week: 5	
Core Course-5		Credits: 5	
Course Code 20UCFC31		Internal 25	External 75

COURSE OUTCOMES

On completion of the course, the students will be able to

- CO1: describe the technical terms and components related to pattern drafting and construction for kid's wear and visualize the various types of kid's garments for different age groups through illustration. [K1]
- CO2: trace the drafting procedure and the methods of preparing layout by using one fourth scale for various kid's garments of different age groups. [K2]
- CO3: estimate the required material, cost calculation and identify the construction techniques involved in making various kid's wear of different age groups. [K3]
- CO4: develop new patterns by using one fourth scale for various kid's wear of different age groups. [K4]
- CO5: select the suitable material and develop new styles for various kid's wear of different age groups. [K5]

UNIT I (0-1 YEAR)

Illustrating, drafting, pattern making, lay out preparation, stitching procedure and material calculation for - bib with various out line shape, panty with elastic and rope model, sun suit with knickers, various model of bonnet, mittens and napkins. (15Hours)

UNIT II (1 – 3 YEARS)

Illustrating, drafting, pattern making, lay out preparation, stitching procedure and material calculation for- zabra – without sleeve-full open and boat neck with magyar sleeve, romper, baba suit - with plain sleeve - convertible collar and front open – knicker – plain and fit model.

(15Hours)

UNIT III (4 – 6 YEARS)

Illustrating, drafting, pattern making, lay out preparation, stitching procedure and material calculation for – A-line petticoat, strap petticoat and gathering petticoat, poncho and three fourth trousers with tie-ups. (15Hours)

UNIT IV (6 – 10 YEARS)

Illustrating, drafting, pattern making, lay out preparation, stitching procedure and material calculation for – baby frock – yoke, puff sleeve and peter pan collar, umbrella frock with bell sleeve, frilled frock – cape sleeve, low waist frock with sleeve less over coat and three fourth sleeve , princess frock with circular sleeve. (15Hours)

UNIT V (10 -12YEARS)

Illustrating, drafting, pattern making, lay out preparation, stitching procedure and material calculation for - boy's - pyjama and kurta, plain shirt with collar, shorts with belt and side pocket. Girls- pinafore – plain blouse with petal sleeve. (15Hours)

B.Sc. COSTUME DESIGN AND FASHION

(2020 -2021 onwards)

Semester III	FASHION DESIGNING	Hours/Week: 4	
Allied Course – II		Credits: 4	
Course Code 20UCFA31		Internal 25	External 75

COURSE OUTCOMES

On completion of the course, the students will be able to

CO1: describe the concepts of fashion, colour aspects, elements and principles of textile design of various garments suitable for irregular figures. [K1]

CO2: classify the types of fashion, colours, motives, design elements, principles of design and illustrate dresses for various figures irregularities. [K2]

CO3: trace the importance of fashion, colours, motives, design elements, principles of design and select dresses for various figure irregularities. [K2]

CO4: find out the changes that occur in fashion and develop motives using basic elements and principles to design fashionable dresses for various figures with suitable trends and colours. [K3]

CO5: analyze the usage of fashion at various fields and factors to be considered while designing dresses based on elements, principles and colours in a textile design for various figures. [K4]

UNIT I Fashion

Fashion – definition, classification, fad, style, classic, fashion trend, fashion forecasting. Fashion evolution. Fashion cycle - style, increase in popularity, peak of popularity, decline in popularity and rejection of a style. Fashion marketing – structure, mannequin and boutique.

(11Hours)

UNIT II Elements and Principles of Design on Apparel

Design, Classification - structural design and decorative design. Elements of design - line, shape, form, texture, directions and space. Principles of design – balance – formal balance, informal balance and radial balance. Proportion – division of space, creating optical illusion, scale, golden oblong. Emphasis – grouping of objects, contrast colour, decorative, plain background, unusual line, shape and size. Rhythm – repetition of shape, progression of size, continuous line movement, alternation and radiation. Harmony – line and shape, size, texture, idea and colour.

(13Hours)

UNIT III Colour Aspects

Prang colour chart – primary, secondary, intermediate and tertiary colours. Colour dimensions - hue, value, intensity. Warm and cool colours. Psychology of colours on dress. Illusions created by colours. Applications of colours for different seasons. Colour schemes—related colour harmony – achromatic harmony, monochromatic harmony and analogous harmony. Contrasting harmony - complementary harmony, double complementary harmony, split complementary harmony and triad. (12Hours)

UNIT IV Introduction to Textile Design

Design developments – motifs, repeats. Types of textile design – natural, geometric, conventional, abstract and historical. Study of repeat structures – spot repeat types – brick, drop, directional and non-directional. Study of turning patterns and its types – flipping horizontal, flipping vertical, turnings spot (rotation dangles), diamond and ogee based designs. (11Hours)

UNIT V Figure Analysis

Figure types and figure irregularities-stout figure, slim figure, low waist, slender figure, narrow shoulders, broad shoulders, round shoulders, large busts, flat chest, large hips, large abdomen, small face, large face, square face, round face, narrow pointed face, prominent chin and jaw, prominent forehead, low forehead, large waist and hip, short waist, low waist, long neck, high hip, sway back, short neck, retrousse nose and prominent nose. (13Hours)

Semester III	FASHION MERCHANDISING	Hours/Week: 2	
Skill Enhancement Course – 2		Credits: 2	
Course Code 20UCFS31		Internal 40	External 60

COURSE OUTCOMES

On completion of the course, the students will be able to

CO1: identify the scope, concepts and elements of merchandise, management and export in an apparel industry. [K1]

CO2: classify the types of fabric, supplier, merchandiser and retailer in an apparel marketing field. [K2]

CO3: outline the importance, process and functions of merchandise, management and exports of apparel industry and also understand the business etiquettes. [K2]

CO4: identify the role of a merchandiser and utilize the procedures to be followed in merchandise, management and exports in apparel industries. [K3]

CO5: analyze the duties and responsibilities of merchandising, focus the factors to be followed in developing products, checking the quality requirements, quality problems, and exporting apparels in fashion fields. [K4]

UNIT I Merchandising

Definition, scope, types, concepts, advantages and disadvantages of merchandising. Terminologies of merchandise management and its process. Functions of a merchandiser. Importance of merchandising in an apparel industry and future merchandising. (6Hours)

UNIT II Types of Merchandising

Fashion, production and retail merchandising – merchandising process. Buying operations – fashion buyer duties and responsibilities. Fashion merchandise purchases. Elements of fashion buying. (6 Hours)

UNIT III Fashion Merchandising

Fashion merchandiser – definition and need. Product development – concepts, process and elements. Pricing and costing strategies. Product management – model stock plan, constraining factors, types of suppliers, retail and export segments. (6Hours)

UNIT IV Merchandising Process

Sourcing—meaning and properties. Fabric-types, selection, factors influencing, planning, vendor management, supply and demand chain analysis. (5Hours)

UNIT V Export Process

Quality requirements and quality problems – guidelines for judging quality of fabrics, selection of readymade garments, documentation – FOB, CIF – shipping mark, delivery date extension. Transport delays- natural calamities. Importance of Letter of Credit (LC) amendments, license, packing and commercial invoice. (7Hours)

B.Sc. Costume Design and Fashion
(2020 -2021 onwards)

Semester IV	FABRIC STRUCTURE AND DESIGN	Hours/Week: 5	
Core Course – 6		Credits: 5	
Course Code 20UCFC41		Internal 25	External 75

COURSE OUTCOMES

On completion of the course, the students will be able to

- CO1: identify the objectives, parts and functions of loom and explain the concepts of weaving, knitting and nonwovens. [K1]
- CO2: illustrate the types of looms, weaves and discover the methods of woven, nonwovens and knitted fabric formation. [K2]
- CO3: find out the techniques involved in the processing of loom, weaving, knitting and nonwovens and also apply its principles to prepare peg plans for various weaves. [K3]
- CO4: focus on the characteristics and applications of woven, non- woven and knitted fabrics. [K4]
- CO5: evaluate the woven, non-woven and knitted fabric formations and develop peg plans for various weaves. [K5]

UNIT I Fabric Formation

Fabric formation – meaning, methods - woven, knitted and nonwoven fabrics. Types, properties and end uses – woven, knitted and nonwoven.

Woven Fabric Formation

Weaving preparatory process - objectives and processing steps – winding, warping, sizing, drawing-in and tying-in. (15 Hours)

UNIT II Looms

Definition, types, parts and functions of loom. Motions of loom – primary, secondary and auxiliary motion. Meaning and features of hand and power looms. Principle of projectile loom, rapier loom, air jet, water jet loom and circular loom. Comparison of hand loom and power loom. (15 Hours)

UNIT III Basic Weaves

Basic weaves – meaning, classification and characteristics. Construction and salient features—plain weave and its variations (rib and basket), twill weave variations (RHT, LHT, pointed and herringbone) satin weave and sateen weave. (15 Hours)

UNIT IV Fancy Weaves

Fancy weave - meaning and types - crepe fabrics, georgette, chiffons, honey comb, huckaback, pique, tapestry, extra threads, pile, warp and weft pile, velvet, velveteen, corduroy, terrypile structures, brocade, damask, double cloth, jacquard weave, dobby weave, leno, swivel and lappet. (15 Hours)

UNIT V Knitting and Non-woven

Knitting – meaning, classification, principles, types – plain, warp, weft. Elements and structure. Passage of material on knitting. Nonwovens – meaning, fibres used and web formation. Dry-laid nonwovens - bonding and stabilization of web. Wet - laid nonwovens – melt blow technology. Spun bond technology – laminating, felting. Other non wovens - needle punching, braiding, tatting, crocheting, calico and netting. Applications of non-woven materials. (15 Hours)

V.V.VANNIAPERUMAL COLLEGE FOR WOMEN

(Belonging to Virudhunagar Hindu Nadars)

An Autonomous Institution Affiliated to Madurai Kamaraj University, Madurai

Re-accredited with 'A' Grade (3rd Cycle) by NAAC

VIRUDHUNAGAR - 626 001

B.Sc. Costume Design and Fashion

(2022 -2023 onwards)

Semester IV	FABRIC STRUCTURE AND DESIGN	Hours/Week: 5	
Core Course – 6		Credits: 5	
Course Code 20UCFC41N		Internal 25	External 75

COURSE OUTCOMES

On completion of the course, the students will be able to

CO1: identify the objectives, parts and functions of loom and explain the concepts and importance of eco mark, weaving, knitting and nonwovens. [K1]

CO2: illustrate the types of looms, weaves, eco mark and discover the methods of woven, nonwovens and knitted fabric formation. [K2]

CO3: find out the techniques involved in the processing of loom, weaving, knitting and nonwovens and also apply its principles to prepare peg plans for various weaves. [K3]

CO4: focus on the characteristics and applications of woven, non- woven and knitted fabrics. [K4]

CO5: evaluate the woven, non-woven and knitted fabric formations and develop peg plans for various weaves. [K5]

UNIT I Loom Mechanisms

Loom - Introduction, classification, parts and functions. Basic Loom Mechanisms- – primary, secondary and auxiliary motion. Principles of projectile loom, rapier loom, air jet, water jet loom and circular loom. Comparison of hand loom and power loom. (15Hours)

UNIT II Weaving

Weaving preparatory process - objectives and processing steps – winding, warping, sizing, drawing-in and tying-in, let off, shedding, picking, beating up and take up. General passage of material through a loom. (15 Hours)

UNIT III Basic Weaves

Basic weaves – meaning, classification and characteristics. Construction and salient features—plain weave and its variations (rib and basket), twill weave variations (RHT,LHT, pointed and herringbone) satin weave and sateen weave. (15Hours)

UNITIV Fancy Weaves

Fancy weave - meaning and types - crepe fabrics, georgette, chiffons, honey comb, huckaback, pique, tapestry, extra threads, pile, warp and weft pile, velvet, velveteen, corduroy, terry pile structures, brocade, damask, double cloth, jacquard weave, dobby weave, leno, swivel and lappet. (15Hours)

UNIT V Knitting and Non-woven

Knitting – meaning, classification, principles, types – plain, warp, weft. Elements and structure. Passage of material on knitting. Nonwovens – meaning, fibres used and web formation. Dry-laid nonwovens - bonding and stabilization of web. Wet - laid nonwovens – melt blow technology. Spun bond technology – laminating, felting. Other non wovens - needle punching, braiding, tatting, crocheting, calico and netting. Applications of nonwoven materials. Eco-mark- Definition, Types of eco mark for fabrics - Silk mark, Handloom mark. (15Hours)

Semester IV	KID'S WEAR LAB	Hours/Week: 2	
Core Practical – 2		Credits: 2	
Course Code 20UCFC41P		Internal 40	External 60

COURSE OUTCOMES

On completion of the course, the students will be able to

CO1: apply the principles of pattern making to draft patterns for various kid's wear. [K3]

CO2: write the stitching procedure for the designed kid's wear. [K3]

CO3: apply the technical skills to construct kid's wear with various features. [K3]

CO4: calculate cost for the designed kid's garment and prepare the record. [K3]

CO5: analyze the current trends in kid's wear. [K4]

Construction of the following garments

1. Bib, mitten and bonnet
2. Zabra and panty
3. Baba suit
4. Petticoat
5. Frock
6. Shorts
7. Full arm shirt with Shakespeare collar
8. Pyjama
9. Kurta for boys
10. Poncho
11. Three fourth pant with tie-ups
12. Pinafore
13. Blouse

Innovative Garments

Semester IV	FASHION AND CLOTHING PSYCHOLOGY	Hours/Week: 4	
Allied Course – II		Credits: 4	
Course Code 20UCFA41		Internal 25	External 75

COURSE OUTCOMES

On completion of the course, the students will be able to

- CO1: enumerate the concepts and importance of fashion, merchandise presentation, wardrobe planning, fashion designers, leaders and innovators. [K1]
- CO2: classify the types of fashion, designers, leaders, and outline the functions of merchandisepresentation and selection of wardrobe for various age groups. [K2]
- CO3: indicate the role of designers, leaders, fashion and elaborate the procedures to be followed in wardrobe selection and merchandise presentation. [K2]
- CO4: trace the usage of fashion for various aspects and signature styles followed by the designers and find out the techniques of wardrobe selection and merchandise presentation. [K3]
- CO5: analyze the fashion evolution, factors to be considered while selecting the garments for wardrobe planning, forecasting and merchandise presentation and compare the styles offashion promoters and designers. [K4]

UNIT I Fashion

Factors influencing fashion changes- psychological needs of fashion, social psychology of fashion, technological, economical, political, legal and seasonal influence. Role of costume as astatus symbol, personality and dress, clothes as sex appeal, costumes reflects cultural value - fashion cycles and repetition of fashion. (11Hours)

UNIT II Fashion Leaders and Adoption

Fashion leaders, fashion innovators, fashion motivation, fashion victims, fashion followers. Adoption of fashion – trickle down, trickle up and trickle across theory. Fashion forecasting- market research, evaluating the collection, fashion services and resources (fashion services, colour services, newsletter services, websites, directories and references). (13 Hours)

UNIT III Visual Merchandising and Merchandising Presentation

Visual merchandising of fashion - types of displays – window displays and interior displays. Elements of display – the merchandise, mannequins forms, props, signage and lighting. Merchandising presentation – tools and techniques - back drop, forms, and fixtures. Fashion show – definition, planning, budgeting, location, timing, selection of models, collection, set design, music, preparing the commentary and rehearsal. (12 Hours)

UNIT IV Fashion Designers

Fashion designers - types - classicist, idealist, influenced, realist, thinking poet. Indian fashion designer – haute couture – Rohit Hosla, Gitanjal kashyap Hemant Trivedi, J.J. Valaya, James Ferrerira, Ritukumar, Rohitbal, Tarun Tahiliani. Minimalists - Himanshu and Sonali Sattar, Sangeethe Chopra and Wendell Rodricks. Village India – Bhamini Subramaniam, Anju Modi, Indiar, Broker, MadhuJain. Studio line- Bhairavi Jaikishan, Kishan Mehta, Ravi Bajaj, Ritu Beri, Rockys. (13 Hours)

UNIT V Wardrobe Planning and Selection

Wardrobe planning – principles and steps involved in wardrobe planning, selection of clothing, factors influencing the choice of clothing materials for general and textile factors – price, serviceability, size and fit, attractiveness, suitability, age, climate, occupation, occasion, design and fashion, sociological and psychological factors. Points to be considered while planning wardrobe for different age groups. (11Hours)

Semester IV	FASHION ILLUSTRATION LAB	Hours/Week: 2	
Allied Practical – 2		Credits: 2	
Course Code 20UCFA41P		Internal 40	External 60

COURSE OUTCOME

On completion of the course, students will be able to

CO1: identify the proportions in sketching the head theories and facial features.

[K3]

CO2: find out the principles to draw the arms, legs, hands, face, eyes, nose, ears, lips and accessories. [K3]

CO3: develop various figure postures with suitable garments by using various colour mediums. [K3]

CO4: prepare the record with various figures and apply the rendering techniques with colour theories, elements and principles of designs. [K3]

CO5: analyze the techniques involved in sketching and designing of various figures and themes with suitable accessories. [K4]

List of Illustrations

1. Introduction to sketching
 - Eight head theory
 - Ten head theory
 - Twelve head theory
2. Legs and feet – principle for drawing the legs, draw the legs in different views, motion to the legs.
3. Arms and hands – principle of drawing the arms, arms and hands in different forms, hand proportion.
4. Whole face in different views – eyes – nose – ears and lips.
5. Accessories – hats, bags, scarves and stoles, shoes, bow and ties.
6. Prang colour chart
7. Value chart
8. Intensity chart

9. Color harmony – related colour harmony – achromatic, monochromatic and analogous. Complimentary colour harmony – single complimentary, double complimentary, split complimentary and triad color harmony.
10. Applications of elements, principles, textures and patterns of design on costume using various color medium – crayon / steadler, oil pastels, pencil color, line work, pencil work, striping, water color, poster color.
11. Movement figure – twisting and turning, running and walking.
12. Illustrate a party wear garment.
13. Illustrate a formal wear garment.
14. Illustrate a casual wear garment.
15. Designing a costume for haute couture.
16. Developing a fashion garment based on seasons.
17. Designing a garment with a theme.

Industrial Visit.

Semester IV	SURFACE ORNAMENTATION LAB	Hours/Week: 1T/1P	
Skill Enhancement Course – 3		Credits: 2	
Course Code 20UCFS41P		Internal 40	External 60

COURSE OUTCOME

On completion of the course, the students will be able to

CO1: write the procedures to make embroidery stitches. [K3]

CO2: choose the suitable design, threads and colours to enrich the surface. [K3]

CO3: make use of the technical skills involved in making embroidery stitches. [K3]

CO4: prepare the record with the samples of basic and advanced embroidery stitches and calculate its cost. [K3]

CO5: develop new trends in embroidery and enrich the textile products. [K4]

List of Basic and Advanced Embroidery Stitches

1. Running stitch
2. Backstitch
3. Stem stitch
4. Chain stitch
5. Lazy daisy stitch
6. Buttonhole
7. Herringbone
8. French knot
9. Straight stitch
10. Feather stitch

11. Couching
12. Beads
13. Sequins
14. Zardosi
15. Smocking
16. Kamal work
17. Ribbon work
18. Mirror work
19. Applique work

Apply stitches on any one garment

(2020 -21 onwards)

Semester IV	INTERIOR DESIGNING	Hours/Week: 2	
NMEC-2		Credits: 2	
Course Code 20UCFN41		Internal 40	External 60

COURSE OUTCOMES

On completion of the course, students will be able to

CO1: show the concepts and selection of colours and furnishing materials for homes. [K1]

CO2: classify the types of colours and furnishing materials suitable for day to day life and explain the maintenance of furnishing materials. [K2]

CO3: trace the usage of colours and functions of home furnishing materials for kitchen linen, draperies, curtains, floor coverings and bed linen. [K2]

CO4: make use of the applications of colours and furnishing materials for various home decors with good care. [K3]

CO5: utilize the technical skills to select colors and materials suitable for home decors. [K3]

UNIT I Colour Aspects

Prang colour chart – primary, secondary, intermediate and tertiary colours. Colour dimensions - hue, value, intensity. Warm and cool colours. Psychology of colours on dress. Illusions created by colours. Applications of colours for different seasons. Colour schemes – related colour harmony - monochromatic harmony and analogous harmony. Contrasting harmony - complementary harmony, double complementary harmony, split complementary harmony and triad. (7Hours)

UNIT II Introduction to Home Furnishing

Introduction to home furnishing – different types of furnishing materials – selection of furnishing materials. (5Hours)

UNIT III Draperies and Curtains

Doors and windows – different types and functions – styles in draperies, curtains and valances. Care and maintenance. (5Hours)

UNIT IV Floor Coverings

Floor coverings – types – hard floor coverings, soft floor coverings. Care and maintenance. (7Hours)

UNIT V Linens

Bed linen - pillow, pillow covers, bed covers. Kitchen linen-apron, table linen and hand towel. Bathroom linen. (6Hours)

Semester IV	Internship / Field Project (2020 -21 onwards)	Hours/Week: 0
PART IV		Credit: 1
Course Code 20UCFI41G		Internal 100

COURSE OUTCOMES

On completion of the Internship/Field Project, students will be able to

CO1: relate their theoretical insights with hands-on experience. [K3]

CO2: develop technical skills to their respective field of study.[K3]

CO3: demonstrate the attributes such as observational skills, team spirit and inter personal skills built through site visits. [K3]

CO4: exhibit the written communication skills acquired through internship/field project. [K3]

CO5: analyze the observations and results and communicate their academic and technological knowledge appropriately oral means. [K4]

GENERAL INSTRUCTIONS:

- **Internship:** A designated activity that carries one credit involving not less than 15 days of working in an organization under the guidance of an identified mentor
- **Field Project:** Students comprising of maximum 5 members in a team need to undertake a project that involves conducting surveys inside/outside the college premises and collection of data from designated communities or natural places.
- Internal Assessment only.

Semester V	PATTERN DRAFTING AND CONSTRUCTION FOR ADULT WEAR I	Hours/Week: 4	
Core Course – 7		Credits: 4	
Course Code 20UCFC51		Internal 25	External 75

COURSE OUTCOMES

On completion of the course, students will be able to

- CO1: list down the components and technical terms for various adult wear and illustrate different models of it. [K1]
- CO2: explain the drafting procedure with various features and the methods of preparing patterns for adult wear. [K2]
- CO3: identify the cutting line, prepare layout, estimate the cloth and calculate the cost for various adult wear and apply the construction techniques for it. [K3]
- CO4: analyze the basic patterns and discover new styles and patterns for various adult wear with texture effect. [K4]
- CO5: predict the latest trends of adult wear and choose the suitable materials and develop patterns for it. [K5]

UNIT I

Illustrating, drafting, pattern making, lay out preparation, stitching procedure and material calculation for – apron, six panel petticoat, cape, house coat with half sleeve and full open and caftan.

(11 Hours)

UNIT II

Illustrating, drafting, pattern making, lay out preparation, stitching procedure and material calculation for - plain skirt, pencil fit skirt, pleated skirt, umbrella skirt, ghagra and choli with hole shoulder sleeve.

(12 Hours)

UNIT- III

Illustrating, drafting, pattern making, lay out preparation, stitching procedure and material calculation for – peplum top, stand collar with tie and bow tops, off shoulder tops, cowl neck tops and halter neck line tops.

(13 Hours)

UNIT IV

Illustrating, drafting, pattern making, lay out preparation, stitching procedure and material calculation for - plain salwar, palazzo, patiala, churidar and butter fly pant. (12 Hours)

UNIT V

Illustrating, drafting, pattern making, lay out preparation, stitching procedure and material calculation for - Punjabi kameez with waist coat, umbrella cut, anarkali cut and panel cut kameez. (12 Hours)

Semester V	DRAPING TECHNIQUES	Hours/Week: 4	
Core Course – 8		Credits: 4	
Course Code 20UCFC52		Internal 25	External 75

COURSE OUTCOMES

On completion of the course, students will be able to

CO1: define the concept and importance of marking, tracing, muslin preparation, dress form and equipments needed for draping. [K1]

CO2: explain the types and methods of draping darts, fullness, neckline, yoke, collar, sleeve, skirt, bodice, gown and equipments needed for draping a garment. [K2]

CO3: find out the applications and techniques involved in draping a garment with different variations. [K3]

CO4: differentiate the draping equipments and analyze the changes that occur in draping different styles of garment. [K4]

CO5: interpret the new trends in creating various blocks to drape a garment. [K5]

UNIT I

Draping and its Preparation

Draping – meaning and stages – draping, marking and tracing. Dress form and its preparation. Preparation of muslin cloth – grain, seam allowance. Equipments needed for draping. (11 Hours)

UNIT II

Basic Patterns

Basic bodice front and back. Dart variations – waist line dart, center front dart, french dart, neck line dart and armhole dart. Fullness pleats, darts, tucks and gathers. (12 Hours)

UNIT III

Neckline, Collar and Yoke Variations

Neckline - Cowl neckline and halter neck line. Yoke variations - bodice yoke, midriff yoke, shirt yoke and hip yoke. Collars - mandarin collar, band collar, convertible collar, shawl collar and peter pan collar. (13 Hours)

UNIT IV**Bodice and Sleeve Variations**

Bodice - peasant, butterfly twist, swap rice bodice, gibson and strapless top. Sleeves – dolman sleeve, batwing sleeve, bell sleeve, kimono sleeve and raglan sleeve. (12 Hours)

UNIT V**Skirt and Gown Variations**

Skirt - basic, kilt, ballet, a- line, circular and yoke skirt with gathers and flare skirt. Gown variations- gown with ruffled petticoat and wedding gown. (13 Hours)

B.Sc. Costume Design and Fashion (2020-2021 onwards)

Semester V	TEXTILE WET PROCESSING	Hours/Week: 4	
Core Course 9		Credits: 4	
Course Code 20UCFC53		Internal 25	External 75

COURSE OUTCOMES

On completion of the course, students will be able to

CO1: describe the concepts, objectives and importance of singeing, desizing, scouring, bleaching, mercerization, dyeing, printing, finishing and dyeing machines. [K1]

CO2: classify the types and methods of wet processing for various fabrics, identify the properties of dyeing and explain the working process of dyeing machines. [K2]

CO3: identify the techniques involved in the processing of various fabrics and dyeing machines and find its applications. [K3]

CO4: analyze the advantages and disadvantages of wet processing and dyeing machines. [K4]

CO5: evaluate the quality of fabrics. [K5]

UNIT I

Production sequence of textile fabrics - flow chart – fabric preparation- singeing, desizing, scouring, bleaching and mercerizing- different methods. (11 Hours)

UNIT II

Dyes - classification and properties of dyes. Direct, vat, reactive, sulphur and naphthol dyes for cotton fabrics. Acid and basic dyes for wool, silk, nylon and acrylic fabrics. Methods of dyeing - direct, stock, top. Dyeing machines - winch, jigger. (12 Hours)

UNIT III

Disperse dyes for polyester fabrics. Vegetable dyes - types and colours, applications of natural dyes, advantages and limitations. Methods of dyeing - yarn, piece, garment and dope dyeing. Dyeing machines – Beam, pigment padding and jet. (11 Hours)

UNIT IV

Printing- meaning, styles of printing and differences between printing and dyeing.

Styles of printing - direct printing - block printing- preparation of block and techniques. Stencil printing - preparation of stencils, process and techniques. Screen printing- flat screen and rotary screen printing, preparation of screen printing paste, screen printing process. Resist printing - batik printing - process and techniques. Tie and dye - process and techniques. Discharge printing - chemicals used, process involved. Modern printing techniques- inkjet printing, heat transfer printing, digital printing. (13 Hours)

UNIT V

Textile finishing – mechanical finishing – calendaring, compacting, embossing, sueding, raising, wool glazing, shearing, stabilization, decatizing, steaming and heat setting, sanforizing and fulling. Chemical finishing – softening, elastomeric finish, crease resistant, soil release, flame retardant treatment, peach finish anti pilling, stain and soil resistant, oil and water proofing, water - repellent, anti static, anti mildew, moth proofing, antibacterial. Enzyme finishing – sewing thread finishing. (13 Hours)

VIRUDHUNAGAR - 626 001

B.Sc. Costume Design and Fashion
(2020 -21 onwards)

Semester V	BASIC STATISTICS	Hours/Week: 4	
DSEC – 1		Credits: 4	
Course Code 20UHSE51		Internal 25	External 75

COURSE OUTCOMES

On completion of the course, students will be able to

CO1: define the basic concept of research, statistics, sampling and sampling methods, data

representation, measures of central tendency, dispersion, correlation and regression. [K1]

CO2: explain the types of research, data, sampling, data representation, measures of central tendency, dispersion, correlation and regression. [K2]

CO3: identify the sources of data, frequency distribution, sampling techniques and manipulate the collected data using statistical techniques. [K3]

CO4: analyse the properties, advantages and disadvantages of methods involved in collection, sampling, summarization and analysis of data.[K4]

CO5: assess the various statistical techniques to manage research work in the field of health and sciences. [K5]

UNIT I

Research – meaning, importance, types and criteria of good research. Statistics - meaning, importance and limitations. Data - definition, classification of data, collection of data - primary data and secondary data, sources, collection methods, advantages and disadvantage. Frequency distribution- definition, discrete and continuous frequency distribution – frequency graphs. (12 Hours)

UNIT II

Diagrammatic representation - advantages, limitations, types - one dimensional, two dimensional, three dimensional, pictogram and cartogram – rules for making diagram. Graphic representation - advantages, types - graphs of frequency distribution and graphs of time series. Tabulation - meaning, parts of tabulation, types of table, objectives and rules. (12 Hours)

UNIT III

Sampling- definition, procedure, advantages, limitations. Probability sampling – simple random sampling, restricted random sampling, stratified sampling. Non probability sampling – judgment sampling, quota sampling and convenience sampling. (12 Hours)

UNIT IV

Measures of central tendency – mean, median, mode. Measures of dispersion - range, interquartile range, quartile deviation, mean deviation, standard deviation and co-efficient of variation- meaning, formula, steps involved in calculation, advantages and disadvantages. (12 Hours)

UNIT V

Correlation - meaning, significance, properties, types and methods of studying correlation- Scatter diagram method, Graphic method, Karl Pearson's coefficient, Rank correlation and Concurrent Deviation method- meaning, formula, steps involved in calculation, advantages and disadvantages.

Regression - meaning, regression line, regression equation, significance, properties, calculation of regression equation, advantages and disadvantages. Difference between correlation and regression. (12 Hours)

COURSE OUTCOMES

On completion of the course, students will be able to

CO1: define the basic concept of research, statistics, sampling and sampling methods, data

representation, measures of central tendency, dispersion, correlation and research report.

[K1]

CO2: explain the types of research, data, tools, sampling, data representation, measures of central

tendency, dispersion and correlation. [K2]

CO3: identify the sources of data, frequency distribution, sampling techniques and manipulate

the collected data using statistical techniques. [K3]

CO4: analyse the properties, advantages and disadvantages of methods involved in collection,

sampling, summarization and analysis of data. [K4]

CO5: assess the various statistical techniques to manage research work in the field of health and

sciences. [K5]

UNIT I

Research – meaning, importance, Research types – Descriptive, Experimental, Evaluative, Analytical and Survey, Tools – Observation, Interview schedule, Questionnaire and Attitude scale, Characteristics of research tool – reliability and validity, practicability and objectivity and criteria of good research.

Statistics - meaning, importance and limitations. Data - definition, classification of data, collection of data - primary data and secondary data, sources, collection methods, advantages and disadvantages. (12 Hours)

UNIT II

Sampling- definition, procedure, advantages, limitations. Probability sampling – simple random sampling, restricted random sampling, stratified sampling. Non probability sampling – judgment sampling, quota sampling and convenience sampling. (12 Hours)

UNIT III

Frequency distribution- definition, discrete and continuous frequency distribution – frequency graphs.

Diagrammatic representation - advantages, limitations, types - one dimensional, two dimensional, three dimensional, pictogram and cartogram – rules for making diagram. Graphic representation - advantages, types – graphs of frequency distribution and graphs of time series. Tabulation - meaning, parts of a table, types of table, objectives and rules. (12 Hours)

UNIT IV

Measures of central tendency – mean, median and mode - meaning, steps involved in calculation, advantages and disadvantages. Measures of dispersion - range, standard deviation and co-efficient of variation- meaning, steps involved in calculation, advantages and disadvantages. (12 Hours)

UNIT V

Correlation - meaning, significance, properties, types and methods of studying correlation- Scatter diagram method, Graphic method, Karl Pearson's coefficient and Rank correlation. Test of significance, T-test, Chi Square test – uses and limitations Fundamentals of writing research report (12 Hours)

Semester V	FASHION AND APPAREL MARKETING	Hours/Week: 4	
DSEC – 1		Credits: 4	
Course Code 20UCFE52		Internal 25	External 75

COURSE OUTCOMES

On completion of the course, students will be able to

CO1: describe the concept and importance of fashion marketing, advertising, consumer market and buyer behavior, marketing environment, standardization and grading in an apparel industry. [K1]

CO2: explain the types and functions of marketing environment, marketing assembling fashion industry, fashion advertising, advertising agencies, standardization and grading in an apparel industry. [K2]

CO3: find the techniques to be followed in fashion marketing, advertising agencies and the role of fashion designers, buyers, predictors, manufacturers, wholesalers, and retailers.[K3]

CO4: examine the merits and demerits of fashion advertising and advertising agencies and analyze the usage of fashion marketing in an apparel industry. [K4]

CO5: interpret the new trends involved in fashion marketing and advertising. [K5]

UNIT I

Fashion Marketing

Marketing – definition, classification. Fashion marketing- definition, types. Fashion market – size and structure. Analysis of consumer markets and buyer behavior. (11 Hours)

UNIT II

Marketing Environment

Introduction – micro marketing environment – designers, international sourcing, manufactures, marketing intermediaries, fashion predictors, consumers, competition within the fashion market, direct and indirect competition for fashion products and public. Macro marketing – political and legal, technological, demographics, social and cultural environments, green issues and economy. Trends in marketing environment. (13 Hours)

UNIT III**Marketing Functions**

Meaning and classification of marketing functions, functions of exchange, functions of physical supply. Marketing assembling-advantages of assembling, problems in assembling. Standardization – meaning. Stranded – meaning and types. Grading – meaning, need and types. Standardization and grading – differentiation and benefits. Packaging – meaning, growth, functions, materials and types.

(12 Hours)

UNIT IV**Fashion Advertising**

Definition and methods of advertising. Advertising media used in apparel market – indoor advertising – types, merits and demerits. Outdoor advertising - types, merits and demerits. Direct advertising – types, merits and demerits. Promotional advertising – types, merits and demerits.

(12 Hours)

UNIT V**Advertising Agency**

Advertising agency – selection of an advertising agency. Structure and functions of advertising agency – interest of advertising agency. Advertising budget- affordable method, percentage of sales methods. Advantages to manufactures, advantages to salesman, advantages to whole sellers and retailers, advantages of customers and advantages of community. Limitations of advertising – economic objection, social objection and ethical objection. Structure and functions of advertising department – advertising function, managerial function and general set-up of advertising department.

Semester V	COSTUMES AND TEXTILES OF THE WORLD	Hours/Week: 4	
DSEC – 1		Credits: 4	
Course Code 20UCFE53		Internal 25	External 75

COURSE OUTCOMES

On completion of the course, students will be able to

CO1: trace the origin, significance, signature and evolution of world fashion art. [K1]

CO2: classify the styles of apparels and its accessories pertaining to various countries. [K2]

CO3: identify the cultural, social and psychological aspects of textiles and costumes. [K3]

CO4: compare and contrast the costumes and accessories of the world. [K4]

CO5: choose the suitable fabric and design costumes for the world fashion. [K5]

UNIT I

Costumes of North and Central America

North America – Inuits and Aleuts, American Indians of southwest, American Indians of plains and North West and Amish costumes. Central America – men and women costumes of Guatemala, Mexico, Andean countries – Colombia, Ecuador, Peru and Bolivia, Chile, Argentina. North East- Brazil, Venezuela Paraguay and Uruguay. (13 Hours)

UNIT II

Costumes of European Countries

European countries – Egypt, Greece, Roman, Norway, Sweden, Denmark, Scotland Austria, Germany, Hungary, Poland, Ukraine, Belarus and Netherlands. (11 Hours)

UNIT III

Costumes of Far Eastern Countries

Far Eastern Countries – Mangolia, China, Taiwan, Hong Kong, Japan, North and South Korea, Srilanka, Pakistan, Burma, Thailand, Philippines, Malaysia, and Singapore. (12 Hours)

UNIT IV

Costumes of Africa

Africa – costumes of North- Algeria, Egypt and Morocco. East- Kenya, Ethiopia, Madagascar. West- Nigeria and Gambia and South – Zimbabwe and Zambia. (12 Hours)

UNIT V**Costumes of Middle East Countries**

Middle East Countries-Turkey and Iran, Pakistan, Kuwait, Oman, Saudi Arabia and costumes of Arab Peninsula. (12Hours)

Semester V	Project	Hours/Week: 0
Core Course -10		Credits: 1
Course Code 20UCFC5PR		100

COURSE OUTCOMES

On completion of the course, students will be able to

CO1: find out the innovative ideas in textiles and fashion and formulate objectives for the project work. [K3]

CO2: apply the learned concepts and write the methodology for the project and collect data. [K3]

CO3: make use of the technical skills and write the report for the developed products [K3]

CO4: analyze the results and infer it. [K4]

CO5: defend the project findings. [K5]

Students are expected to select a project in the field of Textiles and fashion. Two students can do one project. Minimum pages for project report should be 20 pages. Two typed copies of the report on the completed project will be submitted to the Controller of Examination through the Head of the department in the month of November during V semester. Evaluation will be done internally.

V.V.VANNIAPERUMAL COLLEGE FOR WOMEN

(Belonging to Virudhunagar Hindu Nadars)

An Autonomous Institution Affiliated to Madurai Kamaraj University, Madurai

Re-accredited with 'A' Grade (3rd Cycle) by NAAC

VIRUDHUNAGAR - 626 001

B.Sc. Costume Design and Fashion (2020-2021 onwards)

Semester V	FASHION ACCESSORIES LAB	Hours/Week: 1T 1P	
SEC – 4		Credits: 2	
Course Code 20UCFS51P		Internal 40	External 60

COURSE OUTCOMES

On completion of the course, students will be able to

CO1: identify the raw materials needed for making fashionable accessories suitable for various occasions. [K3]

CO2: write the procedures to be followed in making of fashion accessories. [K3]

CO3: make use of the creative skills involved in making of fashion accessories. [K3]

CO4: prepare cost calculation and record for the fashion accessories. [K3]

CO5: analyze the new styles in fashionable accessories suitable for various occasions. [K4]

MAKING OF FASHIONABLE ACCESSORIES

- different types of wallets, belts and footwear
- different types bracelets, bangles, anklets and earrings
- different types hip chains, chains, head and hair bands
- different types of hand bags and pouches
- different types full bridal jewellery set

Industrial Visit.

Semester V	TECHNICAL TEXTILES	Hours/Week: 2	
SEC-5		Credits: 2	
Course Code 20UCFS52		Internal 40	External 60

COURSE OUTCOMES

On completion of the course, students will be able to

CO1: describe the scope and importance of smart textiles, medial textiles, protective textiles, automotive textiles and geo textiles. [K1]

CO2: classify the types of technical textiles. [K2]

CO3: explain the functions of technical textiles. [K2]

CO4: identify the applications of textiles implanted with functional properties.[K3]

CO5: compare and contrast the technical textiles in different fields. [K4]

UNIT I

Technical Textiles

Definition, types and classification of technical textiles indifferent fields, growth and development of technical textiles, new trends in fibers, eco friendly and organic fibers. (6 Hours)

UNIT II

Smart Textiles

Definition, classification, types and fibers used in smart textiles, applications. Intelligent textiles – definition, classification, types and fibers used in intelligent textiles, applications. (6 Hours)

UNIT III

Medical Textiles

Definition, classification, types- implantable, non-implantable, health and hygiene, fibers used and their applications. (6 Hours)

UNIT IV

Protective Textiles

Definition, classification, types- bullet proof fabrics, fire retardant fabrics, high temperature fabrics, UV protective fabrics, electrical protective fabric and mechanical protective fabric, fibers used and its applications. (6 Hours)

UNIT V**Automotive and Geo Textiles**

Textiles for automotive industry- definition, fibers used and its applications. Safety textiles – definition, types of safety devices – air bags and seat belts. Geo textiles – definition, fibers used and its applications. (6 Hours)

B.Sc. Costume Design and Fashion

(2020-2021 onwards)

Semester V	SUSTAINABLE TEXTILES	Hours/Week: 0
Extra Credit Course		Credits: 2
Course Code 20UCFO51		100

COURSE OUTCOMES

On completion of the course, students will be able to

CO1: show the concept of sustainability in textiles, textile finishing, dyeing and importance of sustainable fashion and bio technology in textiles.

CO2: classify the types of sustainability in textile dyeing and the methods of supply chain, textile production, finishing and sustainable fashion and the processing of bio technology in textiles.

CO3: utilize the principles of eco design, eco labels and applications of sustainable textile finishing, dyeing and enzymatic textile processing.

CO4: analyze the factors to be considered in the improvement of dyeing, eco design, eco labels and enzymatic textile processing and sustainable fashion.

CO5: interpret the new trends in sustainable textiles.

Unit I

Sustainability and eco design – introduction, definition and significance. Supply chain process and the environment in textiles and clothing –increasing environmental awareness.

Unit II

Sustainable textile production – sustainability issues in textile finishing. Key environmental drivers in the textile industry- legislation, eco labels, environmental management system.

Unit III

Sustainability in textile dyeing- key factors for improving in dyeing, extraction for natural dyeing, ultra sonic and micro wave extraction, enzymatic extraction, solvent extraction, super critical CO2 extraction.

Unit IV

Sustainable fashion– definition, importance of sustainable fashion -repurposed, recycled textiles, suitability in fashion retailing, green washing and eco fashion designer

Unit V

Bio technology in textile processing - enzyme application, life cycle assessments of enzymes used in textile industry, bio desizing, bio scouring, bio bleaching, bio polishing, bio stoning, enzymatic degumming and enzymatic retting, future trends and application.

Semester VI	PATTERN DRAFTING AND CONSTRUCTION FOR ADULT WEAR II	Hours/Week: 5	
Core Course – 11		Credits: 4	
Course Code 20UCFC61		Internal 25	External 75

COURSE OUTCOMES

On completion of the course, students will be able to

CO1: show the different models of adult wear through illustration and list down the technical terms and components for it. [K1]

CO2: explain the drafting procedure for various adult wear with different features. [K2]

CO3: find out the cutting line, construction techniques, prepare layout, estimate the cloth and calculate the cost for various adult wear. [K3]

CO4: analyze the new trends and draft pattern for various adult wear. [K4]

CO5: select the latest collection of fabric and create new models of adult wear. [K5]

UNIT I

Illustrating, drafting, pattern making, lay out preparation, stitching procedure and material calculation for – maxi, nighty, cut blouse, boat neck blouse with back open model and coat model blouse. (14 Hours)

UNIT II

Illustrating, drafting, pattern making, lay out preparation, stitching procedure and material calculation for - princess cut blouse, high neck blouse, raglan sleeve blouse, katori blouse and wrap around front knotted blouse. (15 Hours)

UNIT III

Illustrating, drafting, pattern making, lay out preparation, stitching procedure and material calculation for - jamaica shorts, pedal pusher, ladies flared pant and dungarees. (15 Hours)

UNIT IV

Illustrating, drafting, pattern making, lay out preparation, stitching procedure and material calculation for – full hand shirt, waist coat, kalidar kurta, Nehru jacket, S.B waist coat, shrug and sharwani. (16 Hours)

UNIT V

Illustrating, drafting, pattern making, lay out preparation, stitching procedure and material calculation for – shorts, bermudas, trousers and jeans. (15 Hours)

VIRUDHUNAGAR - 626 001

B.Sc. Costume Design and Fashion (2020 -2021 onwards)

Semester VI	COMPUTER AIDED DESIGNING	Hours/Week: 5	
Core Course – 12		Credits: 4	
Course Code 20UCFC62		Internal 25	External 75

COURSE OUTCOMES

On completion of the course, students will be able to

CO1: show the basic concept of computer, CIM and the tools used for designing, pattern making, marking and fabric enrichment in an apparel industry. [K1]

CO2: illustrate the types and functions of CIM and software used for designing, pattern making, marking and fabric enrichment used in an apparel industry. [K2]

CO3: identify the techniques involved in designing a garment by using CAD, CIM, CAM and the software used in an apparel industry. [K3]

CO4: compare and contrast the usage of tools and the software used in an apparel industry. [K4]

CO5: interpret the latest advancements in software for designing a garment. [K5]

UNIT I

Basics of Computer and Computer Integrated Manufacturing

Computer - internal part. Organization of computers- input and output units, central processing unit and memory unit. Computer integrated manufacturing- introduction, definitions, nature and role of the elements of CIM, benefits of CIM in apparel industry. (12 Hours)

UNIT II

Software in Fashion Designing

Corel draw – meaning, corel draw terms, Application window. Standard tool bars. Application of tools in designing - pick tool, shape edits tools, crop tools, zoom tools, curve tools, smart tools, rectangle tools, ellipse tools, object tools, basic shapes tools, text tool, table tool, dimension tools, connector tools, interactive tools, eye dropper tools, outline tool, fill tool and interactive fill tool.

Colour graphics in clothing design – meaning, colour theory, psychology of colour in design, importance of colour choice, use of colours in graphic design. (15 Hours)

UNIT III**Computer Aided Designing**

CAD – introduction – CAD - in fashion and clothing Designing- idea, sketching, visualizing the design before production of apparels. Essential fashion designing softwares. Computer aided garment manufacturing – plotting, spreading, cutting, sewing and assembling.

Surface ornamentation. Computerized pattern making, grading and marker planning- pattern making- types- 2D pattern making, 3D pattern making, computer pattern making and its advantages. Computerized pattern grading – data collection, data processing, data presentation and system requirement. Computerized marker planning. Relevant software packages. (18Hours)

UNIT IV**Software in Pattern Designing**

Introduction - Gerber in apparel and retail - product design - product life cycle management software - pattern design software - advantages of accumark software. Marker making - plotting and digitizing - material spreading - support and service. Gerber in upholstery. Gerber in technical textiles. Gerber in transportation interiors. (15 Hours)

UNIT V**Software in Embroidery and Fabric Designing**

Embroidery – meaning, types of embroidery machines – free motion embroidery and computerized embroidery. Benefits of using computerized embroidery machines. Steps to create computerized embroidery. Fabric design - introduction – CAD and CAM Software for fabric designing-application areas-system requirements. CAD and CAM module for dobby design. CAD/CAM module for jacquard design. CAD and CAM module for fabric printing. (15 Hours)

Semester VI	TRADITIONAL COSTUMES AND INDIAN TEXTILES	Hours/Week: 5	
Core Course – 13		Credits: 4	
Course Code 20UCFC63		Internal 25	External 75

COURSE OUTCOMES

On completion of the course, students will be able to

- CO1: recall the history, origin, significance, signature and evolution of textiles, costumes, printing, dyeing, accessories and embroideries of Indian heritage. [KI]
- CO2: classify the types and methods of traditional Indian textiles, costumes and embroideries and indicate the famous traditions followed in various periods and states of India. [K2]
- CO3: find out the usage and techniques involved in making of Indian textiles, costumes, accessories, embroideries, printing and dyeing for various periods and regions of India. [K3]
- CO4: differentiate the traditional costumes and Indian textiles and analyze the care and maintenance of it. [K4]
- CO5: assess the present scenario of traditional Indian textiles, costumes, accessories, printing, dyeing and embroideries especially in context with contemporary usage and designs. [K5]

UNIT I

Textiles for Various Periods and Regions

Indus valley, Vedic, Mauryan and Sunga period. Maharashtra - paithani, narayanpeth, khan, mashru and himroo. Uttar Pradesh - banarasi brocade. West Bengal - jamdani, dacca jamdani, tangail jamdani, nilambari, shantipuri, tant –cotton, baluchari, cowlial, vishnupuri and murshidabad printed silk. (15Hours)

UNIT II

Traditional Indian Textiles

Assam - Muga silk, and pat. West Orissa - sambalpuri. Southern Orissa - bomkai. Madhya Pradesh – chanderi and maheshwari. Andra Pradesh - venkatigiri, uppada, mangalgiri, madhavaram, chirala, gadwal, bandarulanka, bandar, dharmavaram and pochampally. Gujarat – patola and tanchoi silk. Tamil Nadu – kanchipuram silk, and sungadi cotton. Karnataka - mysore silk and ilkal. Rajasthan- kotadoria. Bihar- bhagalpuri and tussar silk. Himachal Pradesh- pashmina shawls. (15Hours)

UNIT III**Traditional Printed and Dyed Textiles**

Printed textiles - block printing, stencil printing, batik printing, roghan printing and other printed and painted textiles - kalamkari, ajrakh, matani pachedi, pabuji-ka-pad, varakgold leaf printing, dabu print, bagru print, gold and silver khari print and bagh print. Dyed textiles - ikat, patola, bandhani, laharua, mashru, tie and dye. (15 Hours)

UNIT IV**Embroideries of India**

Kantha of Bengal, kashida of Bihar, kutch and Kathiawar of Gujarat, kasuti of Karnataka, kashida of Kashmir, banjara embroidery of Andhra Pradesh, gota and rabari of Rajasthan, pipili of Orissa, chambarumal of Himachal Pradesh, Pulkari of Punjab, chikankari of Uttar Pradesh. (15 Hours)

UNIT V**Costumes and Accessories of India**

Introduction to Traditional Indian costumes and accessories of Uttar Pradesh, Madhya Pradesh, Rajasthan, Gujarat, Maharashtra, Punjab, Jammu and Kashmir, Himachal Pradesh, Andhra Pradesh, Karnataka, Kerala and Tamil Nadu. (15 Hours)

VIRUDHUNAGAR - 626 001

B.Sc. Costume Design and Fashion

(2020 -2021 onwards)

Semester VI	TEXTILES AND TRADITIONAL INDIAN EMBROIDERIES LAB	Hours/Week: 2	
Core Practical 8		Credits: 2	
Course Code 20UCFC63P		Internal 40	External 60

COURSE OUTCOMES

On completion of the course, students will be able to

CO1: identify the different types of fibre, fabric, traditional motives and colour threads suitable for Indian embroideries. [K3]

CO2: write the procedure to be followed in testing the textiles and making of Indian embroideries. [K3]

CO3: make use of the technical skills needed for testing the textiles and making different stitches for various states of India. [K3]

CO4: calculate the cost for the traditional Indian embroideries and find out the results for the textile testing and prepare record. [K3]

CO5: analyze the changes that occur in testing the textiles and embroideries followed in various states of India. [K4]

List of Experiments

Identify the types of fibre by microscopic test and burning test – cotton, silk, polyester and rayon.

Geometrical properties of yarn – count using beesley balance.

Identification of different types of yarn by using wrap reel.

Analysis of different weaves by pick glass - plain, twill, sateen, and honey comb.

Identify the physical properties by fabric by using tearing strength tester and stiffness tester.

Preparatory process of fabric- desizing, scouring and bleaching.

Preparation of dyeing process- direct dye, reactive dye, vat dye and naphthol dye –cotton. Basic dye and acid dye – wool, silk and nylon. Disperse dye – polyester.

Dyeing of a fabric by tie and dye method using cotton, polyester and silk.

Batik printing in cotton fabric.

Printing of fabric - stencil, screen and block.

Industrial Visit.

Traditional Indian Embroideries

- Kantha of Bengal
- Kashida of Bihar and Kashmir
- Kutch and mirror of Gujarat
- Kasuthi of Karnataka
- Chikankari of Uttar Pradesh
- Phulkari of Punjab

Industrial Visit.

V.V.VANNIAPERUMAL COLLEGE FOR WOMEN

(Belonging to Virudhunagar Hindu Nadars)

An Autonomous Institution Affiliated to Madurai Kamaraj University, Madurai

Re-accredited with 'A' Grade (3rd Cycle) by NAAC

VIRUDHUNAGAR - 626 001

B.Sc. Costume Design and Fashion (2020-2021 onwards)

Semester VI	PRESPECTIVES OF TEXTILES AND FASHION	Hours/Week: 5	
DSEC – 2		Credits: 4	
Course Code 20UCFE62		Internal 25	External 75

COURSE OUTCOMES

On completion of the course, students will be able to

CO1: state the concept and importance of textile testing and technical textiles recall the history of fashion accessories and embroideries and list the characteristics of knitted fabrics. [K1]

CO2: classify the types of knitting, textile testing, technical textiles, embroideries and fashion accessories and write the functions of textile testing and knitting. [K2]

CO3: find out the applications of textile testing, technical textiles, embroidery threads and fashion accessories and find out the techniques involved in knitting process. [K3]

CO4: analyze the changes occur in textile testing, factors to be considered in selection of fashion accessories, defects in stitches and differentiation in perspectives of textiles and fashion. [K4]

CO5: interpret the new trends in the perspectives of textiles and fashion. [K5]

UNIT I

KNITTING

Knitting – types - jacquard knitting, weft knitting and warp knitting, – definition, types of machineries and mechanisms. Characteristics and defects of warp and weft knitted fabric. Difference between warp and weft knitting. (15 Hours)

UNIT II

TEXTILE TESTING

Textile testing– definition, purpose and general aspects. Types, functions and applications of yarn testing – lea strength tester. Fabric testing –tensile strength tester, bursting strength, thickness gauge, grams per square meter (GSM) cutter, abrasion resistance and crease recovery. Colour Fastness – crock meter, perspirometer, launder meter and light fastness tester. (16 Hours)

UNIT III**TECHNICAL TEXTILES**

Technical textiles – definition, classification and types of fibers used in sports tech, oak tech, cloth tech and pack tech and their applications. (14 Hours)

UNIT IV**NEEDLE ART**

Embroidery-Introduction, history, tools and general rules. Methods to transfer embroidery design and applications of threads. Types and methods of outline stitches – running and its variations, back and its variations, chain and its variations. Filling stitches – satin, herring bone, fishbone and long and short. Knotted stitches - double knot, bullion knot and french knot. Common defects in embroidery stitches. (15 Hours)

UNIT V**FASHION ACCESSORIES**

Fashion accessories - history, styles selection and usage - hand bag, foot ware, hat, watches, eye wear and jewellery. Cosmetics and fragrances- categories and their applications. (15 Hours)

Semester VI	APPAREL QUALITY AND MANAGEMENT	Hours/Week: 5	
DSEC – 2		Credits: 4	
Course Code 20UCFE63		Internal 25	External 75

COURSE OUTCOMES

On completion of the course, students will be able to

CO1: show the concept and importance of quality and cost control and management in an apparel industry. [K1]

CO2: illustrate the types, functions and methods of costing, quality control and production planning, packaging, warehousing and shipping in an apparel industry.[K2]

CO3: identify the techniques involved in quality, cost control management and production control in garment industry. [K3]

CO4: analyze the factors to be considered in quality control from raw material to finished garment in an apparel industry. [K4]

CO5: interpret the changes that occur in quality inspection, cost and production control in an apparel industry. [K5]

UNIT I

Quality Management

Definition of quality and quality control. Quality control department. Scope of quality control – establishing merchandising standards – establishing raw material quality. (14 Hours)

UNIT II

Quality Control Specifications

Establishing processing quality specification, training quality control personnel, the quality standard control – quality control inspection, procedures for processing – quality control of finished garments. (15 Hours)

UNIT III

Quality Control for Packaging, Warehousing and Shipping

Quality control and government contacts. Quality control for packaging, warehousing and shipping. Statistical quality control. Sampling plans. (14 Hours)

UNIT IV**Production Plan and Control**

Functions of production control, production analysis – quality specifications, qualitative specification and quantitative production. Scope of apparel manufacturing activity, coordinating departmental activities, distribution of document and records. Production system – introduction, types of control forms basic production system, principles for choosing a production system and evaluating production system. (16 Hours)

UNIT V**Cost Control and Quality Control Management**

Functions of cost control, types of costs and expenses – apparel manufacturing cost categories, sales cost control, purchasing cost control, production cost control and administration cost control. Cost control and ISO in quality control management - cost ration policies, manufacturing budget, cash flow control, standard cost sheet and break even charts. ISO 9000, 14000 and SA 8000. (16Hours)

Semester VI	FASHION PORTFOLIO AND DESIGN COLLECTION LAB	Hours/Week: 1T 1P	
SEC-6		Credits: 2	
Course Code 20UCFS61P		Internal 40	External 60

COURSE OUTCOMES

On completion of the course, students will be able to

CO1: develop patterns for various garments with suitable themes. [K3]

CO2: write the stitching procedure for the designed garments. [K3]

CO3: construct the designed garments according to the selected themes. [K3]

CO4: prepare the record with mood board, story board, theme board and colour board for the designed garments and calculate its cost.[K3]

CO5: analyze the collections of mood board, story board, theme board and colour board for the designed garments. [K4]

- An individual portfolio presentation based on a theme
 - Portfolio should have minimum 2 collections of 5 ensembles (3 wearable-children, women, men and 1 non wearable)
 - Portfolio should include development of story board, mood board, theme board, colour board, texture board, swatch board, logo, design development board–costing, customer profile, specification sheet, development of garments by drafting.
 - Produce one collection from the portfolio and to be presented as fashion show.
- Preparation of concept boards for four seasons of three ensembles each.
